At age two, Helen Keller became deaf and blind. She lived in a world of silence and darkness and she spent the rest of her life struggling to break through it. But with the help of teacher Annie Sullivan, Helen learned to read, write, and do many amazing things. This inspiring illustrated biography is perfect for young middle-grade readers. Black-and-white line drawings throughout, sidebars on related topics such as Louis Braille, a timeline, and a bibliography enhance readers' understanding of the subject.

Fourteen-year-old Natalie O'Reilly's world is turned upside down with the news that she will soon go blind. As if this weren't shocking enough, she is forced to face the fact that she must now attend a school for the blind to learn Braille and how to use a cane. As Natalie tackles the skills that will help her to survive in a sighted world, she inwardly hopes for a miracle that will save her sight. But will that miracle come, or will she need to learn to embrace her new life?

Perfect for fans of Mike Lupica, New York Times bestselling author and former NFL player Tim Green tells a heartfelt and moving story about a deaf boy's journey to change how others see him—both on and off the football field. All Landon Dorch has ever wanted is to be like everyone else. His deafness and the way he talks have been obstacles all his life. But now he finally sees his chance to fit in. Bigger and taller than any other seventh grader in his new school, Landon plans to use his size to his advantage and join the school's football team. But the same speech problems and the cochlear implants that help him hear continue to haunt him. Just when it looks like Landon will be left out of football for good, an unlikely friend comes along. But in the end only Landon can fight his way off the bench and through a crowded field of bullies bent on seeing him forever left out.

According to the last census, one in five people in the United States lives with a disability. Some are visible, some are hidden--but all are underrepresented in media and popular culture. Now, just in time for the thirtieth anniversary of the Americans with Disabilities Act, activist Alice Wong brings together an urgent, galvanizing collection of personal essays by contemporary disabled writers. There is Harriet McBryde Johnson's "Unspeakable Conversations," which describes her famous debate with Princeton philosopher Peter Singer over her own personhood. There is columnist s. e. smith's celebratory review of a work of theater by disabled performers. There are original pieces by up-and-coming authors like Keah Brown and Haben Girma. There are blog posts, manifestos, eulogies, and testimonies to Congress. Taken together, this anthology gives a glimpse of the vast richness and complexity of the disabled experience, highlighting the passions, talents, and everyday lives of this community. It invites readers to question their own assumptions and understandings. It celebrates and documents disability culture in the now. It looks to the future and past with hope and love.

This paperback edition, accompanied by the supplemental video content available on the Gallaudet University Press YouTube channel, presents the first empirical study that verifies Black ASL as a distinct variety of American Sign Language. This volume includes an updated foreword, a new preface that reflects on the impact of this research, and an extended list of references and resources on Black ASL.

A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, Black Boy was both praised and condemned. Orville Prescott of the New York Times wrote that "if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy." Yet from 1975 to 1978, Black Boy was banned in schools throughout the United States for "obscenity" and "instigating hatred between the races." Wright's once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he may his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of Black Boy, Wright sits poised with pencil in hand, determined to "hurl words into this darkness and wait for an echo." Seventy-five year later, his words continue to reverberate. "To read Black Boy is to stare into the heart of darkness," John Edgar Wideman writes in his foreword. "Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear." One of the great American memoirs, Wright's account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time.

Her great-great-grandfather was an early English settler and the first deaf islander. Now, over a hundred years later, many people there -- including Mary -- are deaf, and nearly everyone can communicate in sign language. Mary has never felt isolated. She is proud of her lineage. But recent events have delivered winds of change. Mary's brother died, leaving her family shattered. Tensions over land disputes are mounting between English settlers and the Wampanoag people. And a cunning young scientist has arrived, hoping to discover the origin of the island's prevalent deafness. His maniacal drive to find answers soon renders Mary a "live specimen" in a cruel experiment. Her struggle to save herself is at the core of this penetrating and poignant novel that probes our perceptions of ability and disability.

Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

"A collection of ten short stories that all take place in the same day about kids walking home from school"--

How do you give a eulogy when you can't think of one good thing to say? A poignant, funny, and candid look at grief, family secrets, difficult people, and learning to look behind the facade. As if being stuffed into last year's dress pants at his cousin's wake weren't uncomfortable enough, thirteen-year-old Jimmy has just learned from his mother that he has to say a few words at the funeral the next day. Why him? What could he possibly say about his cousin, who ruined everything they did? He can't recall one birthday party, family gathering, or school event with Patrick that didn't result in injury or destruction. As Jimmy attempts to navigate the odd social norms of the wake, he draws on humor, heartfelt concern, and a good deal of angst while racking his brain and his memory for a decent and meaningful memory to share. But it's not until faced with a microphone that the realization finally hits him: it's not the words that are spoken that matter the most, but those that are truly heard.
