Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America ' s premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede ' s wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid ' s, handle like a pro ' s. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension ' s condition. He outlines testing procedures that will help you gauge how well you ' re improving your suspension, along with your riding. And, if you ' re inclined to perfect your bike ' s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto–promising a solution to virtually any handling problem.

GSX-R600 (1997-2000)

Preparing the Honda CR and XR for Competition includes Training Tips from Marty Smith, and a detailed look at the CR and RC Honda Factory Race Bikes First published in 1979 as the "Moto-X Fox Guide to Preparing the Honda CR and XR for Competition," this expanded 84-page book was written and photographed by famed 1970's Cycle News editor, racer and motocross journalist Jim "Jimmy the Greek" Gianatsis. Included is a later published 16-page Supplement featuring the 1980 season water-cooled RC Pro-Link monoshock works bikes, and a look at the rare RC125-80 twin cylinder motocross bike. Covered is the development and racing history of the Honda 2-stroke CR production and RC works bikes, raced by the Don Jones family with Gary and DeWayne in 1973, through to to the exotic RC works machines raced by Marty Smith, Marty Trips, Pierre Karsmakers, Jimmy Ellis, Graham Noyce and Brad Lackey up through 1980 with the water-cooled Pro-Link bikes. Included is race bike preparation from American Honda factory mechanics Cliff White and Bill Buchkal. Honda CR production bike race preparation and tuning is provided by the Moto-X Fox Racing Team, the top privateer team in motocross with tuners Keith Bontranger and Paul Turner for riders Steve Wise, Jim Turner, Larry Wosick and the Honda factory team. There is also a special chapter covering the Honda XR 4-stroke trail bikes and how to prepare them for motocross. Included is "Training Tips from Marty Smith" of Team Honda and 500cc National Motocross Champion. "Preparing the Honda CR and XR for Competition" serves as very interesting reading and a great historical reference guide for dirt bike fans both young and old. Many of the bike preparation and riding tips are still relevant today. A must have for any dirt bike enthusiast or collector.

XLH883, XL883R, XLH1100, XL/XLH1200

Patients with brain tumor-related epilepsy (BTRE) suffer from two serious pathologies simultaneously – a brain tumor and a secondary form of epilepsy. Although there has been remarkable progress in BTRE research in recent years, it remains an on-going challenge for clinicians and continues to stimulate much debate in the scientific community. This volume is the first to be completely dedicated to BTRE, and in doing so it explores issues faced by the health care team as well as some of the novel and promising directions that future research may take. Epilepsy and Brain Tumors is not only a complete reference on BTRE but also a practical guide based on clinical experiences, with a comprehensive collection of presentations from international experts who share some of the latest discoveries and their approaches to tackling a wide range of difficult and complex issues. Includes coverage of epidemiology, pathology and treatment of both primary and metastatic brain tumors Offers additional insight into supportive care, incidence in children, focal epileptogenesis, clinical evaluation, antiepileptic drugs, surgical treatment, cognitive rehabilitation, and more Chapters authored and edited by leaders in the field around the globe – the broadest, most expert coverage available

The best-selling Honda ever, the long-running Honda Mini Trail, was available in a huge range of models, even within each model year. The Honda Mini Trail Enthusiast's Guidecovers all Honda Mini Trails and Z50 bikes produced between 1968 and 1999. Author Jeremy Polson begins with a brief introduction of the models that led up to the Mini Trail, and then jumps into a thorough analysis of the many models and iterations that Honda has offered through the years. Despite the worldwide popularity of Honda's best-selling model, no other Mini Trail book had been published, and the accuracy of information found on the Internet is suspect at best. For Z50 collectors and enthusiasts, this book presents facts and figures found nowhere else. In addition to the hard facts regarding each model of each year, this book is filled with many rare photos that track the evolution of the Mini Trail, and unravel its mystery.
