A Faith of Our Own: Second-generation Spirituality in ...

In " A Faith of Our Own, " Jonathan Merritt presents a theology  
for those Christians who find themselves fed up with political  
grandstanding and being forced to choose a particular political  
party based on directives from those in authority of their church,  
denomination, or supposed theological bent.

A Faith of Our Own: Following Jesus Beyond the Culture ...

Certainly, we need a faith of our own. We need to rediscover the  
glory of the Gospel in an age that has relegated it to something of no  
use and no importance. Certainly, we need to engage our faith  
individually and in community in authentic ways. I ' m not sure  
exactly how we can reform some of these misguided aspects of  
American Christianity.

Every day, major headlines tell the story of how Christianity is attempting to influence American culture and politics. But statistics show that young Americans are disenchanted with a faith that has become culturally antagonistic and too closely aligned with partisan politics. In this personal yet practical work, Jonathan Merritt uncovers the changing face of American Christianity by uniquely examining the coming of age of a new generation of Christians. Jonathan Merritt illuminates the spiritual ethos of this new generation of believers who engage the world with Christ-centered faith but an un-polarized political perspective. Through personal stories and biblically rooted commentary this scion of a leading evangelical family takes a close, thoughtful look at the changing religious and political environment, addressing such divisive issues as abortion, gay marriage, environmental use and care, race, war, poverty, and the imbalance of world wealth. Through Scripture, the examples of Jesus, and personal defining faith experiences, he distills the essential truths at the core of a Christian faith that is now just coming of age.

Second-generation Korean Americans, demonstrating an unparalleled entrepreneurial fervor, are establishing new churches with a goal of shaping the future of American Christianity. *A Faith of Our Own* investigates the development and growth of these houses of worship, a recent and rapidly increasing phenomenon in major cities throughout the United States. Immigration historians have depicted the second-generation as a transitional generation--on the steady march toward the inevitable decline of ethnic identity and allegiance. Sharon Kim suggests an alternative path. By harnessing religion and innovatively creating hybrid religious institutions, second-generation Korean Americans are assertively defining and shaping their own ethnic and religious futures. Rather than assimilating into mainstream American evangelical churches or inheriting the churches of their immigrant parents, second-generation pastors are creating their own hybrid third space--new

autonomous churches that are shaped by multiple frames of reference. Including data gathered over ten years at twenty-two churches, *A Faith of Our Own* is the most comprehensive study of this topic that addresses generational, identity, political, racial, and empowerment issues.

Adding to the contributions made by *Soul Searching* and *Souls in Transition*--two books which revolutionized our understanding of the religious lives of young Americans--Lisa Pearce and Melinda Lundquist Denton here offer a new portrait of teenage faith. Drawing on the massive National Study of Youth and Religion's telephone surveys and in-depth interviews with more than 120 youth at two points in time, the authors chart the spiritual trajectory of American adolescents and young adults over a period of three years. Turning conventional wisdom on its head, the authors find that religion is an important force in the lives of most--though their involvement with religion changes over time, just as teenagers themselves do. Pearce and Denton weave in fascinating portraits of actual youth to give depth to mere numerical rankings of religiosity, which tend to prevail in large studies. One teenager might rarely attend a service, yet count herself profoundly religious; another might be deeply involved in a church's social world, yet claim to be "not, like, deep into the faith." They provide a new set of qualitative categories--Abiders, Assenters, Adapters, Avoiders, and Atheists--quoting from interviews to illuminate the shading between them. And, with their three-year study, they offer a rich understanding of the dynamic nature of faith in young people's lives during a period of rapid change in biology, personality, and social interaction. Not only do degrees of religiosity change, but so does its nature, whether expressed in institutional practices or personal belief. By presenting a new model of religious development and change, illustrated with compelling personal accounts of real teenagers, Pearce and Denton offer parents, scholars, and religious leaders a new guide for understanding religious development in

teens.

A faith should be a living thing. What we believe necessarily evolves in response to insights into the Bible, to questions or doubts we face, to changes in life circumstances, or to things that happen in the larger world. Nevertheless, Christians often find it helpful to identify what they can most fully believe at a given moment. Such clarity empowers the present and leads us toward the future. Such moments can also be mile markers by which we measure our faith journey. In each chapter the first section lists the most common ways a certain topic is understood in the Bible. The second section identifies important ways the church has interpreted that topic since the Bible's inception. The third section introduces contemporary perspectives. With that foundational knowledge, readers can make a judgment as to which viewpoints seem more or less persuasive to them personally. Finally, each chapter ends with questions for reflection for individuals or small groups.

On a September afternoon in 1853, three African American men from St. Philip's Church walked into the Convention of the Episcopal Diocese of New York and took their seats among five hundred wealthy and powerful white church leaders. Ultimately, and with great reluctance, the Convention had acceded to the men's request: official recognition for St. Philip's, the first African American Episcopal church in New York City. In *Faith in Their Own Color*, Craig D. Townsend tells the remarkable story of St. Philip's and its struggle to create an autonomous and independent church. His work unearths a forgotten chapter in the history of New York City and African Americans and sheds new light on the ways religious faith can both reinforce and overcome racial boundaries. Founded in 1809, St. Philip's had endured a fire; a riot by anti-abolitionists that nearly destroyed the church; and more than forty years of discrimination by the Episcopalian hierarchy. In contrast to the majority of African Americans, who were flocking to evangelical

## Read Online A Faith Of Our Own

denominations, the congregation of St. Philip's sought to define itself within an overwhelmingly white hierarchical structure. Their efforts reflected the tension between their desire for self-determination, on the one hand, and acceptance by a white denomination, on the other. The history of St. Philip's Church also illustrates the racism and extraordinary difficulties African Americans confronted in antebellum New York City, where full abolition did not occur until 1827. Townsend describes the constant and complex negotiation of the divide between black and white New Yorkers. He also recounts the fascinating stories of historically overlooked individuals who built and fought for St. Philip's, including Rev. Peter Williams, the second African American ordained in the Episcopal Church; Dr. James McCune Smith, the first African American to earn an M.D.; pickling magnate Henry Scott; the combative priest Alexander Crummell; and John Jay II, the grandson of the first chief justice of the Supreme Court and an ardent abolitionist, who helped secure acceptance of St. Philip's.

An Episcopal priest examines the basic demands and responsibilities of Christian life. (2.33) (2.33).

So, what did America ' s founders really believe about God, the Bible, and Christianity? Find out in Faith and Freedom—The Founding Fathers in Their Own Words. This brand-new survey of the founders ' beliefs provides easy-to-read biographical and historical details along with relevant quotations from the speeches and writings of Patrick Henry, John Adams, George Washington, James Madison, Noah Webster, Benjamin Franklin, and a half-dozen others. Often portrayed as either hostile to faith or unbelieving in a personal God, the Founding Fathers of Faith and Freedom just might surprise you!

In this beautifully written work, one of America's most beloved meditation teachers offers discerning wisdom on understanding faith

as a healing quality. Through the teachings of Buddha and insight gained from her lifelong spiritual quest, Salzberg provides us with a road map for cultivating a feeling of peace that can be practiced by anyone of any tradition.

The movie *Grace Unplugged* tells the story of Grace Trey, an ideal Christian teenager who is also a phenomenal singer. But when she is pushed into the “ real world ” at the tender age of eighteen after getting the music break of a lifetime, her faith is put to the test. *Own It!* mirrors the film by asking what it means to really “ own ” your personal faith rather than just automatically following in the footsteps of parents, friends, or other influencers. Best-selling authors Hayley and Michael DiMarco help readers understand what to do when faith meets real world challenges. Without solid beliefs, poor choices are likely to follow. You must take the time to really know who you are, who you are becoming, and who God made you to be. It's your personal faith . . . own it!

Thomas Moore explores the myriad possibilities of creating a personal spiritual style, either inside or outside formal religion. Two decades ago, Moore's *Care of the Soul* touched a chord with millions yearning to integrate spirituality into their lives. He now recounts the benefits of contemplative living that he learned during his monastic years, but also the more imaginative spirituality that he later embraced. Moore weaves experiences of everyday people with the wisdom of philosophers, writers and artists who have infused their lives with transcendence.
