 A-Level Physics by Roger Muncaster Unfortunately we do not have a summary for this item at the moment Why buy from World of Books Our excellent value books literally don't cost the earth

This extensively revised 4th edition of an established physics text offers coverage of the recent developments at A/AS-Level, with each topic explained in straightforward terms, starting at an appropriate Level (7/8) of the National Curriculum

...WELL-PRESENTED Its large format allows for the clear presentation of topics . Illustrations and charts are used wherever possible to convey information and enhance the text. Student-friendly language is used throughout...EASY-TO-USE Consolidation sections stress key points. Definitions and fundamental points are highlighted. Worked examples are included throughout...IDEAL FOR SELF-ASSESSMENT AND REVISION Questions are included at relevant points in the text, allowing students to test immediately their understanding of a topic. In addition, each chapter ends with a selection of questions, the majority of which are taken from past examination papers.

Written by members of the Editorial Board of the Institute of Physics, Advanced Physics makes A-level physics accessible to all students, with Maths boxes throughout to support concept development. Questions give opportunities to practise recall and analytical skills, and there are high quality diagrams and full colour illustrations throughout.

Designed to be motivating to the student, this title includes features that are suitable for individual learning. It covers the AS-Level and core topics of almost all A2 specifications.

Written by experienced authors and members of the Editorial Board of the IOP, Advanced Physics maintains the rigours of physics at the highest levels in a style that makes it accessible to a wide range of students.

Each topic is treated from the beginning, without assuming prior knowledge. Each chapter starts with an opening section covering an application. These help students to understand the relevance of the topic: they are motivational and they make the text more accessible to the majority of students. Concept Maps have been added, which together with Summaries throughout, aid understanding of main ideas and connections between topics. Margin points highlight key points, making the text more accessible for learning and revision. Checkpoints in each chapter test students' understanding and support their private study. A selection of questions are included at the end of each chapter, many form past examination papers. Suggested answers are provided in the Answers Key.
