Dalton, a professor of racialist studies and an expert on inferior people of all ethnicities, genders, religions, and sexual preferences, everyone should be hated. A Practical Guide to Racism takes a satirical look at long-standing stereotypes and draws them out to their mad and illogical conclusions.

At its core, this deeply sarcastic body of evidence suggests that, by the standards of racism, every race is terrible in its own right. A Practical Guide to Racism contains sparkling bits of wisdom on such subjects as:

- The good life enjoyed by blacks, who shuffle through life unhindered by the white man's burdens, to become accomplished athletes, rhyme smiths, and dominoes champions
- A close look at the bizarre, sweet-smelling race known as women, who are not very good at anything - especially ruling the free world
- The sad story of the industrious, intelligent Jews, whose entire reputation is sullied by their taste for the blood of Christian babies
- A crucial manual to Arabs, a people so sensitive they are liable to blow up at any time.

Literally.

Racism is pervasive in today's world, and many are complicit in the failure to confront its evils. Jemar Tisby, author of the award-winning *The Color of Compromise*, believes we need to move beyond mere discussions about racism and begin equipping people with the practical tools to fight against it. *How to Fight Racism* is a handbook for pursuing racial justice with hands-on suggestions bolstered by real-world examples of change. Tisby offers an array of actionable items to confront racism in our relationships and in everyday life through a simple framework--the A.R.C. Of Racial Justice--that helps readers consistently interrogate their own actions and maintain a consistent posture of anti-racist action. This book is for anyone who believes it is time to stop compromising with racism and courageously confront it. Tisby roots the ultimate solution to racism in the Christian faith as we embrace the implications of what Jesus taught his followers. Beginning in the church, he provides an opportunity to be part of the solution and suggests that the application of these principles can offer us hope that will transform our nation and the world. Tisby encourages us to reject passivity and become active participants in the struggle for human dignity across racial and ethnic lines. Readers of the

book will come away with a clear model for how to think about race in productive ways and a compelling call to dismantle a social hierarchy long stratified by skin color.

In 1920, 14 percent of all land-owning US farmers were black. Today less than 2 percent of farms are controlled by black people--a loss of over 14 million acres and the result of discrimination and dispossession. While farm management is among the whitest of professions, farm labor is predominantly brown and exploited, and people of color disproportionately live in "food apartheid" neighborhoods and suffer from diet-related illness. The system is built on stolen land and stolen labor and needs a redesign. *Farming While Black* is the first comprehensive "how to" guide for aspiring African-heritage growers to reclaim their dignity as agriculturists and for all farmers to understand the distinct, technical contributions of African-heritage people to sustainable agriculture. At Soul Fire Farm, author Leah Penniman co-created the Black and Latinx Farmers Immersion (BLFI) program as a container for new farmers to share growing skills in a culturally relevant and supportive environment led by people of color. *Farming While Black* organizes and expands upon the curriculum of the BLFI to provide readers with a concise guide to all aspects of small-scale farming, from business planning to preserving the harvest. Throughout the chapters Penniman uplifts the wisdom of the African diasporic farmers and activists whose work informs the techniques described--from whole farm planning, soil fertility, seed selection, and agroecology, to using whole foods in culturally appropriate recipes, sharing stories of ancestors, and tools for healing from the trauma associated with slavery and economic exploitation on the land. Woven throughout the book is the story of Soul Fire Farm, a national leader in the food justice movement. The technical information is designed for farmers and gardeners with beginning to intermediate experience. For those with more experience, the book provides a fresh lens on practices that may have been taken for granted as ahistorical or strictly European. Black ancestors and contemporaries have always been leaders--and continue to lead--in the sustainable agriculture and food justice movements. It is time for all of us to listen.

In 2008 the United States elected its first black president, and recent polls show that only twenty-two percent of white people in the United States believe that racism is a major societal problem. On the surface, it may seem to be in decline. However, the evidence of discrimination persists throughout our society. Segregation and inequalities in education, housing, health care, and the job market continue to be the norm. Post 9/11, increased insecurity and fear have led to an epidemic of the scapegoating and harassment of people of color. *Uprooting Racism* offers a framework for understanding institutional racism. It provides practical suggestions, tools, examples, and advice on how white people can intervene in interpersonal and organizational situations to work as allies for racial justice. Completely revised and updated, this expanded third edition directly engages the reader through questions, exercises, and suggestions for action, and takes a detailed look at current issues such as affirmative action, immigration, and health care. It also includes a wealth of information about specific cultural groups such as Muslims, people with mixed-heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latinos. Previous editions of *Uprooting Racism* have sold more than fifty thousand copies. Accessible, personal, supportive, and practical, this book is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice.
