A Short History of Christianity. by. Martin E. Marty. 3.69 · Rating details · 35 ratings · 5 reviews. For the non-specialist, Martin Marty traces the church's quest through twenty centuries for unity, sanctity, universality, and authentic witness. He delves into the disparity between the ideals of the church and historical reality in order to provide a brilliant, instructive, and eminently fair statement of the history of Christianity from its founding to the present day.

day, including discussion of topics such as: the Eastern church, battles between East and West, the Reformation, the Counter-Reformation, the Enlightenment and the impact of science. The author also provides a snapshot of the worldwide church of the 21st century and explores the challenges it faces.

Reproduction of the original: A Short History of Christianity by J.M. Robertson

Christianity has played a central role in world history, for better or worse, but beyond the story of Jesus, many people know little of this story. Geoffrey Blainey takes readers on a journey from the very beginnings of Christianity through to the current day. Looking at the development of the religion itself, as well as the social and economic forces that have influenced it, the book focuses on the stories of the key players in Christianity's rise and fall through the ages, as well as how these players shaped the faith of believers.

First published in 1976, Paul Johnson's exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude—"a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical" (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known 'Jesus Sect', A History of Christianity explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

Author Mark Noll presents the unfolding drama of American Christianity with accuracy and skill, from the first European settlements to ecumenism in the late 20th Century. This work has become a standard in the field of North American religious history.

Charting the rise and development of Christianity, Carter Lindberg has succeeded in writing a concise and compelling history of the world's largest religion. He spans over 2,000 years of colorful incident to give an authoritative history of Christianity for both the general reader and the beginning student. Ranges from the missionary journeys of the apostles to the tele-evangelism of the twenty-first century. Demonstrates how the Christian community received and forged its identity from its development of the Bible to the present day. Covers topics fundamental to understanding the course of Western Christianity, including the growth of the papacy, heresy and schism, reformation and counter-reformation. Includes an introduction to the historiography of Christianity, a note on the problems of periodization, an appendix on theological terms, and a useful bibliography. An authoritative yet succinct history, written to appeal to a general audience as well as students of the history of Christianity. Written by internationally regarded theologian, Carter Lindberg, who is the author of numerous titles on theology and Church history.

Church historians have long known and appreciated Christianity's global history. Until recently, however, introductory textbooks on the history of Christianity focused almost exclusively on Europe and North America. Robert Bruce Mullins's A Short World History of Christianity, by contrast, offers a panoramic picture of the history of Christianity in its Western and non-Western expressions. It tells the story of the early church in the Greek East as well as the Latin West; of Christianity's spread into Asia as well as Europe during the Middle Ages; and its explosion around the world during the modern period. Mullins's highly readable narrative explores why global perspectives have emerged so strongly in our understanding of the story of Christianity and how they have impacted Christianity's perspective on its place in the world. This newly revised edition adds information on such global phenomena as early Syriac-speaking Christianity; the growth of Pentecostalism around the world, especially in the southern hemisphere; and recent trends in Christianity, including the elevation of the first pope born in the Americas. A time line of key dates, call-out boxes, and other helpful study materials are also provided. Beginning students will appreciate this memorable introduction to the most important events in the history and development of Christianity.

What did people really believe in the Middle Ages? Much of our sense of the medieval period has come down to us from the writings of the learned: the abbots, priors, magnates, scholastic theologians and others who between them, and across Christendom, controlled the machinery of church and state. For G R Evans too much emphasis has been placed on a governing elite and too little on those - the great mass of the semi-literate and illiterate, and the emergent middle classes - who stood outside the innermost circles of ecclesiastical power, privilege and education. Her book finally gives proper weight to the neglected literature of demotic religion: the lives of saints; writings by those - including lay women - who had mystical experiences; and lively texts containing stories for popular edification. Ranging widely, from the fall of Rome to the ideas of the Reformation, the author addresses vital topics like the appeal of monasticism, the lure of the Crusades, the rise of the friars and the acute crisis of heresy. As Evans reveals, medieval Christianity was shaped above all by its promise of salvation or eternal perdition.
