# Read Online

## Alphanumeric

An alphanumeric data entry test is one that tests both letters and numbers typed. Typically for this type of test, typing speed is measured in kph, or keystrokes per hour, rather than wpm, or

# Read Online Alphanumeric

words per  
minute. The  
standard

conversion rate  
from kph to wpm  
is five  
keystrokes equal  
one word, so a  
1,000 kph speed  
would translate  
to 200 words per  
hour.
