An Introduction To Cable Roof Structures Second Edition

This is everything but introduction to cable roof structures...Some topics are too advanced and theoretic to be introductioal..Topics like:

Dynamic analysis of nonlinear cable structures:time domain analysis and frequency domain analysis could be useful only for roofs above 100-150m m span...-Actually, the book is about roof cable structures but without solving any practical example of roof structures. There are 3 numerical examples, and they are presented in preliminary level.

Dry fix roofing has been around in the UK for almost 50 years, but its usage is increasing thanks to improvements in standards. The publication of BS 8612 in early 2018, is welcomed by the Roof Tile Association, particularly with the requirements introduced in the 2014 revision of BS 5534, ensuring all fixed ridge, hip and verge systems meet agreed standards.
