Evans traces the late Princess's forebears from the British Isles to the United States and the Far East, compiling a definitive ancestry.

"Almost since first hearing of Lady Diana Spencer ... many Americans have been aware that the Princess of Wales has genealogical links to this country ... the Princess [is] one-eighth (or more properly, three-sixteenths) American, the granddaughter of a Harvard graduate and U.S. Army captain during World War I ... she also has ancestors who lived in six of the original thirteen colonies ... and probably between twenty and thirty million living distant American cousins."

The story of the last great naval battle between England and Spain, evoking a number of colorful and dangerous personalities who fought in the climactic conclusion to these two countries' great rivalry on the sea. Ireland: Christmas Eve, 1601. As thunder crashes and lightning rakes the sky, three very different commanders line up for a battle that will decide the fate of a nation. General Juan del Águila has been sprung from a prison cell to command the last great Spanish armada. His mission: to seize a bridgehead in Queen Elizabeth's England and hold it. Facing him is Charles Blount, a brilliant English strategist whose career is also under a cloud. His affair with a married woman edged him into a treasonous conspiracy—and

brought him to within a hair's breadth of the gallows. Meanwhile, Irish insurgent Hugh O'Neill knows that this is his final chance to drive the English out of Ireland. For each man, this is the last throw of the dice. Tomorrow they will be either heroes or failures. These colorful commanders come alive in this true story of courage and endurance, of bitterness and betrayal, and of drama and intrigue at the highest levels in the courts of England and Spain.

Dole Genealogy: The Mayflower sailed from England in 1620. John Howland and Elizabeth Tilley were aboard and would later marry and have ten children. Richard Dole came to New England aboard the ship Jonathan from Bristol, England, in 1639. These two lines would merge. Their descendants would gather Royal lineage from both English and French crowns. Relationship has been proven to the late Diana, Princess of Wales and the current English monarchy. Daniel Dole became a missionary to the Sandwich Islands - later called the Hawaiian Islands. He was the first headmaster of Punahou School. The missionaries would create the Hawaiian alphabet and print the first books in the local language. Sanford Ballard Dole was instrumental in the Hawaiian Revolution and the overthrow of Queen Liliuokalani which resulted in the end of the Hawaiian monarchy. He became President of the Hawaiian Republic and later, Governor of the Territory of Hawaii. James Drummond Dole became known as the Pineapple King and gave birth to a sustainable pineapple industry in the Islands through the company he founded: the Dole Hawaiian Pineapple Company. This is their story and that of others of the Dole family who have left their mark. The book includes pedigree charts to the 13th generation. Volume II of this books contains 99 pages of expanded pedigree charts of potential interest to individuals of multiple related lines during the period 1600 - 1950. Volume III contains the history of the George Hathaway Dole Family from the mid-19th century onwards. [Full color version]

It is 2003. George Bush has just appeared aboard a Navy carrier flashing a Mission Accomplished banner. In England, a Wicca coven warns British Intelligence of a prophecy to assassinate a future US president. It is to be carried out by Ramses, the son of the Anti-Christ. British MI-5 notifies the CIA. The CIA enlists the Hawaii Attorney General because Ramses was last known to be in Hawaii. Hawaii authorities discover that there is more to the prophecy besides a potential assassination. If the assassination is carried out, it will lead to the start of Armageddon. To prevent the fulfillment of the prophecy, Ramses must be reunited with the Anti-Christ in ancient Babylon, now modern-day Iraq. The Bible believing Lieutenant Governor of Hawaii sees this as another piece of evidence of the approaching End-Times. He recruits Honolulu narcotics detective Jake Cohen-Garcia, a former Navy SEAL. Jake is the ideal Anti-Christ bounty hunter because of his born again Christian reputation and his unique Jewish-Hispanic DNA. Jake's DNA heritage matches up perfectly with links connected to the Wicca prophecy. Jake is teamed up with two investigators and a certified exorcist priest. They form a unique investigative unit: The God Squad. The squad's mission is to locate Ramses and short-circuit the prophecy of Armageddon. The mission takes the squad into the bizarre world of the occult and quantum mechanics that challenges their faith, their strength, and their sanity. The battles with the paranormal compound, Cohen-Garcias struggle with his personal demons and split personality. It threatens to destroy his faith, along with his family, as it propels him toward his own destruction. In the end, Jake's salvation comes from an up-close and personal confrontation with Ramses, a holy man from another world. The salvation of the world hangs in the balance.

The ancestors of Timothy Hogan can be traced from Greene County, Tennessee before the Civil War to Haddon Hall in Derbyshire, England where his ancestors were Lords and Ladies of ancient England and Wales. Many lines go back to the ancient leaders of Wales including Rhys ap Iffrhith and to the Merovingian Kings and Queens of Normandy, France. Timothy's Swedish line, which came to Iowa in the USA, came directly from Sweden where they can be traced back to the sea kings of Uppsala, Sweden in about 500 AD. Continuing back some of his European ancestors, they can be traced to Seleucus Nicator in ancient Syria, the father of Helen of Troy. It is easy to imagine that some of the members of the Hogan Family retained the ambition and traits of their ancient ancestors. Many of his forefathers in Colonial America were Freemasons and instrumental in forming the burgeoning American Nation. "Rick Hutto does a great job of organizing a myriad of facts in this intriguing story of a celebrated miscarriage of justice, and he presents them masterfully as a compelling read."--Mary S. Lovell, author of *The Riviera Set: Glitz, Glamour, and the Hidden World of High Society* "A scrupulously detailed dissection of one of the most intriguing cases in British judicial history--with a surprising twist at the end."--Anne de Courcy, author of *The Viceroy's Daughters: The Lives of the Curzon Sisters* Florence Maybrick was the first American woman to be sentenced to death in England--for murdering her husband, a crime she almost certainly did not commit. Her 1889 trial was presided over by an openly misogynist judge who was later declared incompetent and died in an asylum. Hours before Maybrick was to be hanged, Queen Victoria reluctantly commuted her sentence to life in prison--in her opinion a woman who would commit adultery, as Maybrick had admitted, would also kill her husband. Her children were taken from her; she never saw them again. Her mother worked for years to clear her name, enlisting the president of the United States and successive ambassadors, including Robert Todd Lincoln. Decades later, a gruesome diary was discovered that made Maybrick's husband a prime Jack the Ripper suspect.
