The Power of Empowering Others Leadership isn't easy. It takes grit, courage, and vision, among other things, that can be hard to come by on your toughest days. When leaders and aspiring leaders seek out advice, they're often told to try harder. Dig deeper. Look in the mirror and own your natural-born strengths and fix any real or perceived career-limiting deficiencies. Frances Frei and Anne Morriss offer a different worldview. They argue that this popular leadership advice glosses over the most important thing you do as a leader: build others up. Leadership isn't about you. It's about how effective you are at empowering other people—and making sure this impact endures even in your absence. As Frei and Morriss show through inspiring stories from ancient Rome to present-day Silicon Valley, the origins of great leadership are found, paradoxically, not in worrying about your own status and advancement, but in the unrelenting focus on other people's potential. Unleashed provides radical advice for the practice of leadership today. Showing how the boldest, most effective leaders use a special combination of trust, love, and belonging to create an environment in which other people can excel, Frei and Morriss offer practical, battle-tested tools—based on their work with companies such as Uber, Riot Games, WeWork, and others—along with interviews and stories from their own personal experience, to make these ideas come alive. This book is your indispensable guide for unleashing greatness in other people . . . and, ultimately, in yourself. To learn more, please visit theleadersguide.com.

Maccus Fury, a fallen angel, is trying hard to keep his sanity. Seems being an assassin might be catching up with him. Now, Heaven, or Hell, has sent a beautiful assassin to kill him. Lovely. She's pretending to seduce him, and he's okay with that. She's smart and snarky—but she has no idea what she's walked into. And he's more than peeved that they only sent one person. They're going to need an army if they want him dead. Morrigan Quill is one of Hell's bounty hunters. She sold her soul to keep her sister safe, and now she's working off her contract by catching bad guys and dragging them back to hell. When Lucifer makes her a new offer—that's definitely too good to be true—she can't say no. All she has to do is kill a powerful and crazy-hot fallen angel, who will totally kick her ass in battle. Good thing he won't see what's coming next.

"Lisa Lister is an uber-goddess of humour, wisdom, fun and cheek. She's just what THIS doctor ordered." – Dr Christiane Northrup, author of Goddesses Never Age and Making Life Easy A witch is a wise woman, a healer. Yet for so long the word "witch" has had negative connotations. In this book, third generation hereditary witch Lisa Lister explains the history behind witchcraft, why identifying as a healer in past centuries led women to be burned at the stake, and why the witch is reawakening in women across the world today. All women are witches, and when they connect to source, trust their intuition, and use their magic, they can make medicine to heal themselves and the world. This book is a re-telling of Herstory, an overview of the different schools of witchcraft and the core principles and practices within them. Discover ancient wisdom made relevant for modern witches: • The wheel of the year, the sabbats, the cycles of the moon. • Tools to enhance your intuition, including oracle cards and dowsing, so that you can make decisions quickly and comfortably. • Understanding the ancient use of the word "medicine". • How to work with herbs, crystals, and power animals so that you have support in your spiritual work. • How to build and use a home altar to focus your intentions and align you with seasonal cycles, the moon cycles, and your own intentions for growth. • Cleanse, purify, and create sacred space. • Work with the elements to achieve deep connection with the world around you. In addition, Lisa teaches personal, hands-on rituals and spells from her family lineage of gypsy witch magic to help you heal, manifest, and rediscover your powers. Above all, Lisa shows that we really are "the granddaughters of the witches that they couldn't burn".
