Chemistry AP Edition - 10th Edition Sampler - 107. 3.11 The Concept of Limiting Reactant  
107 Because a smaller amount of  $\text{NH}_3$  is produced from the  $\text{H}_2$  than from the  $\text{N}_2$ , the amount of  $\text{H}_2$  must be limiting. Thus because the  $\text{H}_2$  is the limiting reactant, the amount of  $\text{NH}_3$  that can form is  $1.65 \times 10^3$  moles.

The Zumdahls' hallmark problem-solving approach and focus on conceptual development come to life in this new edition with interactive problems that promote active learning and visualization. Enhanced by a

## Online Library Ap Chemistry 10th Edition

wealth of online support that is seamlessly integrated with the program, Chemistry's solid explanations, emphasis on modeling, and outstanding problem sets make both teaching and learning chemistry more meaningful and accessible than ever before. The authors emphasize a qualitative approach to chemistry in both the text and the technology program before quantitative problems are considered, helping to build comprehension. The emphasis on modeling throughout the narrative addresses the problem of rote memorization by helping students to better understand and appreciate the process of scientific

## Online Library Ap Chemistry 10th Edition

development. By stressing the limitations and uses of scientific models, the authors show students how chemists think and work.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This fully updated Ninth Edition of Steven and Susan Zumdahl's CHEMISTRY brings together the solid pedagogy, easy-to-use media, and interactive exercises that today's instructors need for their general chemistry course. Rather than focusing on rote

## Online Library Ap Chemistry 10th Edition

memorization, CHEMISTRY uses a thoughtful approach built on problem-solving. For the Ninth Edition, the authors have added a new emphasis on critical systematic problem solving, new critical thinking questions, and new computer-based interactive examples to help students learn how to approach and solve chemical problems--to learn to think like chemists--so that they can apply the process of problem solving to all aspects of their lives. Students are provided with the tools to become critical thinkers: to ask questions, to apply rules and develop models, and to evaluate the outcome. In addition,

## Online Library Ap Chemistry 10th Edition

Steven and Susan Zumdahl crafted ChemWork, an online program included in OWL Online Web Learning to support their approach, much as an instructor would offer support during office hours. ChemWork is just one of many study aids available with CHEMISTRY that supports the hallmarks of the textbook--a strong emphasis on models, real world applications, visual learning, and independent problem solving.
