We address the issue of
deixis – anaphora in
sign language (SL)
discourse, focusing on
the role of eye-gaze.

According to the
Semiological Approach,
SL structuring stems
from a maximum
exploitation of the visuo-
gestural modality, which

backgrounds on their
English writing.

Through Text

This book details
patterns of language use
that can be found in the
writing of adult

immigrant learners of
Norwegian as a second

language (L2). Each
study draws its data
from a single corpus of

texts written for a
proficiency test of L2

Acces PDF

Approaching

Norwegian by learners representing 10 different first language (L1) backgrounds. The participants of the study are immigrants to Norway and the book deals with the varying levels and types of language difficulties faced by such learners from differing backgrounds. The studies examine the

Acces PDF

Approaching

learners' use of Norwegian in relation to the morphological, syntactic, lexical, semantic and pragmatic patterns they produce in their essays. Nearly all the studies in the book rely on analytical methods specifically designed to isolate the effects of the learners' L1s on their use of L2 Norwegian, and every

Acces PDF

Approaching

chapter highlights patterns that distinguish different L1 groups from one another.

This volume, dedicated to language transfer, starts out with state-of-the-art psycholinguistic approaches to language transfer involving studies on psycholinguistic transfer, lexical interference and

Acces PDF

Approaching

foreign accent. The next chapter on Transfer in Language Learning, Contact, and Change presents new empirical data from several languages (English, German, Russian, French, Italian) on various transfer phenomena ranging from second language acquisition and contact-induced change in word

Approaching

order to cross-linguistic

influences in word

formation and the

lexicon. Transfer in

Applied Linguistics

scrutinizes, on the one

hand, the external

sources of language

transfer by investigating

bilingual resources and

the school context, but

also by pointing out the

differences in academic

language in multilingual

Acces PDF

Approaching

adolescents. On the other hand, internal sources of language transfer in multilingual classrooms are illuminated. A final chapter directs its focus on methodological issues that arise when more than one language is studied systematically and it offers a solution on causal effects for the investigation of heritage

Acces PDF

Approaching

language proficiencies.

The chapter also includes studies that exploit more innovative methodologies on L1 identification and clitic acquisition.

The Detection Based Approach Second Language Acquisition

Acces PDF

Approaching

Provides a comprehensive overview of third language acquisition (additive multilingualism) in adulthood, an increasingly important subfield of language acquisition.

Approach
A cogent, freshly written synthesis of new and classic work on crosslinguistic influence,

Acces PDF

Approaching

language transfer,
this book is an
authoritative account of
transfer in second-
language learning and
its consequences for
language and thought. It
covers transfer in both
production and
comprehension, and
discusses the distinction
between semantic and
conceptual transfer,
lateral transfer, and

Acces PDF

Approaching

reverse transfer. The book is ideal as a text for upper-level undergraduate and graduate courses in bilingualism, second language acquisition, psycholinguistics, and cognitive psychology, and will also be of interest to researchers in these areas.
