Basic Science Learn Basic Skills

Basic skills can be compared to higher order thinking skills. Facts and methods are highly valued under the back-to-basics approach to education. Facts are learned one at a time, in isolation, as compared to an integrated curriculum which combines fields of learning. They are learned from a book or teacher as compared to constructivism or student-centered learning where the learner constructs his or her own knowledge. Direct instruction is based on teaching basic skills. They are learned for aca
