When selective colleges and universities first employed affirmative action policies, the predominant ancestries of the beneficiaries were the children of two American-born black parents ("Ascendant Blacks"). However, foreign-born blacks, their children, and mixed race blacks now constitute a growing majority of the black students at many selective higher education programs and their percentages are increasing. Thus, America is ethnically cleansing from the campuses of these institutions Ascendant Blacks, the primary group that affirmative action policies were intended to benefit. This book discusses the ethnic cleansing of Ascendant Blacks and its implications for American society, and suggests possible ways to address the problem.

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

What fears and limiting beliefs keep you from achieving the life you want? Everyone su?ers inaction from limiting beliefs: “I can’t possibly do that” or “I don’t have enough (money, time, ability) to do that.” *Unlimiting Your Beliefs* is the key to conquering those negative voices you’re holding onto. Karen Brown, business psychology coach, speaker and ultra-athlete, shares proven strategies to transform your limiting beliefs and achieve any goal or dream. After struggling with her own limiting beliefs and fears, Karen discovered her true potential by finishing the most difficult race in the world, the IRONMAN World Championship, accomplishing a goal she’d held for 28 years. *Unlimiting Your Beliefs* is a success manual that puts the 7 powerful keys to achievement right at your fingertips so you can make any dream possible for yourself. You already possess the power to achieve anything you desire; unlimit your beliefs to tap into it.

Lessons for Living (volume 2) is a curriculum designed to help Christian leaders shepherd, mentor, and disciple others in the various aspects of evangelism as prescribed in God’s Word. This study offers weekly reminders about the doctrine of evangelism and real-life application and scenarios that Christians face each day as they share the gospel of Jesus Christ with others. Lessons for Living encourages readers to spend time in the Word of God, and can be used individually or within study groups, discipleship groups, Sunday School classes, weekly Bible Studies, or life-enrichment groups. Our desire is that these lessons, each outlined with a Key Verse, Discussion Questions, and a Final Thought to Remember, encourage each reader to dig deeper into the Word of God.

"Customer Success will become the authoritative book of the emerging Customer Success industry and target any business that is trying to focus, or re-focus, on customers and will be applicable to all customer management roles such as Account Manager, Customer Advocacy, Client Relationship Manager, and Customer Success Manager along with the leadership of those organizations. Customer Success will address the pains of how to start creating a customer-centric company and how to think strategically about Customer Success - how to organize, compensate, find a leader, measure, etc. Customer Success has exploded as one of the hottest B2B movements since the advent of the subscription business model"--

A beautiful gift edition of the number one New York Times bestseller—from the founder and president of the Children’s Defense Fund.

Writing from The Huffington Post, Alan Keyes' RenewAmerica.us, TownHall.com and more debates hot button political issues. From media bias to women's rights, religion to global warming and President Obama to recent headlines Rod Blagojevich and Carrie Prejean, nothing and no one is off limits. As conservative Hartsock takes on the liberal agenda, Russin presents questions and background facts. This, all done with new short essays and color photos featuring both authors and Mint Owl tie designer Chris Cantoya - striking a pose in formal attire, jeans, lingerie or...nothing but a cooking apron.
