This book explores the domestic and international relations of countries in the Middle East and North

Get Free Ben Gurion The New Millennium Edition

Africa using the focus of ideas and repeat interactions employed by constructivism. This book incorporates rich history and analyses of political trends and figures of the region to develop a deeper understanding of Middle East politics.

There is an old Jewish adage that pretty much sums up Israel ' s experience among the nations for the last 2,000 years. " Scratch a gentile, " the saying goes, " and you ' re sure to find an anti-Semite. " That notion is given credence by the fact that the first two millennia of the Jewish-Christian encounter culminated in the systematic slaughter of six-million Jews in the heart of Christendom. But Dr. Paul R. Carlson, author of Christianity After Auschwitz, is cautiously optimistic that the dawn of this new millennium may lead to Jewish-Christian amity as the Church faces up to its past sins and seeks to work with the Synagogue against those demonic forces which threaten civilization itself. However, as Carlson illustrates, the genocidal germ that gave birth to Hitler ' s criminal regime still flourishes among countless Christians, many of whom would passionately deny they harbor any anti-Semitic notions or sentiments. While the book is addressed primarily to Carlson ' s fellow evangelicals, both Jews and Christians will discover that it provides the general reader with an overview of those critical issues which scholars alone have in the past wrestled with in the post-Holocaust Jewish-Christian encounter. At the outset, Carlson is quick to concede that the late Rabbi Joseph B. Soloveitchik, a scion of the great Chechnowa Rebbe, was certainly correct when he insisted that " Christians have never tried to penetrate the soul of the Jews. " They have read the Bible but neglected the

Get Free Ben Gurion The New Millennium Edition

oral tradition by which we interpret it,” he noted. “ This makes a different Bible altogether. For example, says Rav Soloveitchik: “ To equate Judaism with legalism the way Christian theologians are prone to do is like equating mathematics with a compilation of mathematical equations. ” By the same token, old stereotypes die hard. “ The Jew has been pictured as the arch-capitalist and the arch-Bolshevik and chastised for being both, whipsawed by contending forces, ” says Nathan C. Belth. “ The Soviet authorities [saw] Jews as a threat to the state, and Alexander Solzhenitsyn, who castigate[d] Soviet terror, sees Jews as libertarians who brought on socialism, after, of course, rejecting Christ. ” Since time-immemorial, anti-Semites have also portrayed the Jew as the greedy, shady businessman or banker. But they conveniently forget stories such as that of Haym Salomon [1740-1785], the Jewish broker whose financial aid staved off starvation and desertion among American troops during our War for Independence. At one critical point, Robert Morris, the American financier and statesman, sent a messenger to alert Haym Salomon of the plight of the cash-strapped Colonial forces. The man brought the news to Salomon while he was attending Yom Kippur services at Mikveh Israel Synagogue in Philadelphia. The congregation was shocked at the intrusion on the holiest day of the Jewish year; but Haym Salomon quietly informed the messenger: “ Tell Mr. Morris our country ’ s appeal will not be in vain. ” But that old canard about Jews and their money remains grist for the anti-Semite ’ s mill. By the same token, Jews have not been entirely blameless when it comes to their own stereotypes of Christians, particularly evangelicals. Nathan Perlmutter confessed as much during his tenure as national director of the

Get Free Ben Gurion The New Millennium Edition

Anti-Defamation League (ADL) of B' nai B' rith. " Our image of the fundamentalist and the evangelical is a kind of collage assembled out of bits and pieces from Theodore Dreiser, Sinclair Lewis and Erskine Caldwell . . . , " he admitted. " Even after all this time memories of the great swarm of sex-ridden, Bible-thumping caricatures continue to exert a pervasive power. " But evangelicals would be among the first to admit that Jews have come a long way since the days of the infamous Toledot Yeshu, or Life of Jesus, which depicted the Galilean in scandalous terms. Indeed, the Israeli author Shalom Ben-Chorin is representative of those Jewish intellectuals who now believe that " it is time for Jesus to come home again. " Meanwhile, few Christians realize just how vulnerable many Jews feel in what they perceive to be " Christian America. " That perception is heightened by the 1992 American Jewish Year Book finding that " roughly 12 percent of Americans of Jewish heritage are now Christians. "

" There is another way of looking at what I have called a disaster in the making, " says former US Assistant Secretary of State Elliott Abrams, author of Faith or Fear: How Jews Can Survive in a Christian America " Of the 6.8 million people who are Jews or of Jewish descent, 1.1 million say they have no religion and 1.3 million have joined another religion, adding up to 2.4 million, " Abrams observes. " This means that one-third of the people in America of Jewish ethnic origin no longer report Judaism as their current religion (Abrams italics). Such statistics illustrate why Jewish leaders unanimously condemn those Christian missionary agencies which specifically target Jews for conversion. They have been particularly incensed by one recent evangelical effort, known as Peace 2000, which aimed

Get Free Ben Gurion The New Millennium Edition

to convert every Jew in Israel to Christianity by the dawn of the new millennium. “ Centuries of martyrdom are the price which the Jewish people has paid for survival,” says Brandeis scholar Marshall Sklare. “ And the apostate, at one stroke, makes a mockery of Jewish history. “ But if the convert is contemptible in Jewish eyes,” Sklare adds, “ the missionary — all the more, the missionary of Jewish descent -- is seen as pernicious, for he forces the Jew to relive the history of his martyrdom, all the while pressing the claim that in approaching the Jew he does so out of love. “ What kind of love is it, Jews wonder, that would deprive a man of his heritage,” Sklare asks. “ Furthermore, given the history of Christian treatment of the Jews, would it not seem time at last to recognize that the Jew has paid his dues and earned the right to be protected from obliteration by Christian love as well as destruction by Christian hate? ” The distinguished Rabbi Abraham Joshua Heschel was even more pointed about the matter. “ I had rather enter Auschwitz,” he once remarked, “ than be an object of conversion. ” All of this leads to the opening chapter of Christianity After Auschwitz, which introduces Christians to Emil Fackenheim ’ s “ Eleventh Commandment ” — or 614th Mitzvoth — which decrees that Jews are not permitted to grant Hitler any posthumous victories through intermarriage, assimilation, or conversion to a faith not their own. In a word, they are commanded to remain Jews. By the same token, Jewish scholars are quick to recognize that any “ open and honest ” dialogue will at some point involve a frank discussion of the similarities and differences between the Jewish and Christian perception[s] of the Messianic hope. With that understanding, the second chapter deals with the

Get Free Ben Gurion The New Millennium Edition

remarkable career of the late Rabbi Menachem Mendel Schneerson, the seventh and last Grand Rebbe of the Chabad Lubavitch Hasidim. Many of his talmidim, or disciples, believe he will ultimately be revealed as King-Messiah. His life and work are considered within the context of that of Jesus of Nazareth, as well as those of several pseudo-messiahs who have troubled Israel down through the centuries. The author then makes it clear that Jesus himself

This book is an in-depth portrait of investment opportunity in the Middle East as it stands today. For each of sixteen countries, the author provides in-depth analysis of current economic, political, and business issues, with detailed attention to legislation in such vital areas as currency and banking, intellectual property rights, investment incentives, trade regulation, business form and structures, taxation, and the laws applicable to labor and environmental issues, as well as a description of relevant judicial procedures. The Middle East in the New Millennium represents the clearest indication we have yet of the prospects for crystallization of this region and the likely pace and aspect of economic liberalization.

This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Turkey's involvement in the Gulf War in 1991 paved the way for the country's acceptance into the European Union. This book traces that process and in the first part looks at Turkey's foreign policy in the 1990s, considering the ability of the country to withstand the repercussions of the fall of communism. It focuses on Turkey's achievement in halting and minimising the

Get Free Ben Gurion The New Millennium Edition

effects of the temporary devaluation in its strategic importance that resulted from the waning of the Cold War and the disintegration of the Soviet Union, the skilful way in which Turkey avoided becoming embroiled in the ethnic upheavals in Central Asia, the Balkans and the Middle East, and the development of a continued policy of closer integration into the European and western worlds. Internal politics are the focus of the second part of the book, addressing the curbing of the Kurdish revolt, the economic gains made, and the strengthening of civil society. Nachmani goes on to analyse the prospects for Turkey in the twenty-first century, in the light of the possible integration into Europe, which may leave the country's leadership free to deal effectively with domestic issues. This book will make crucial reading for anyone studying Turkish politics, or indeed European or European Union politics.

By looking at history and geography it is clear that many end-time passages from the Old Testament prophecies have been fulfilled. Applying the same process to the familiar New Testament end-time passages, Butler shows that most of these prophecies have also been fulfilled.

Please note this is a 'Palgrave to Order' title (PTO). Stock of this book requires shipment from an overseas supplier. It will be delivered to you within 12 weeks. A central concern of this study is the relationship between Wagner the artist and Wagner the social phenomenon. Many of the essays within explore the most difficult yet most crucial issue in Wagner studies: the impact of the composer's problematic world view and complex personal life on his musical/dramatic

Get Free Ben Gurion The New Millennium Edition

creations.

This book reviews the state-of-the-art and state-of-the-practice of modeling methods and methodologies in information systems development. The book has sections on foundations of information modeling, extended object-oriented modeling and Web information systems modeling. Information Modeling in the New Millennium addresses the gap between technical and business-oriented modeling approaches by providing an integrative view of modeling different of facets of ICT and organizations.

How a controversial biblical tale of conquest and genocide became a founding story of modern Israel No biblical text has been more central to the politics of modern Israel than the book of Joshua. Named after a military leader who became the successor to Moses, it depicts the march of the ancient Israelites into Canaan, describing how they subjugated and massacred the indigenous peoples. The Joshua Generation examines the book's centrality to the Israeli occupation today, revealing why nationalist longing and social reality are tragically out of sync in the Promised Land. Though the book of Joshua was largely ignored and reviled by diaspora Jews, the leaders of modern Israel have invoked it to promote national cohesion. Critics of occupation, meanwhile, have denounced it as a book that celebrates genocide. Rachel Havrelock looks at the composition of Joshua, showing how it reflected the fractious nature of ancient Israelite society and a desire to unify the populace under a strong monarchy. She describes how David Ben-Gurion, Israel's first prime minister, convened a study group at his home in the

Get Free Ben Gurion The New Millennium Edition

late 1950s, where generals, politicians, and professors reformulated the story of Israel's founding in the language of Joshua. Havrelock traces how Ben-Gurion used a brutal tale of conquest to unite an immigrant population of Jews of different ethnicities and backgrounds, casting modern Israelis and Palestinians as latter-day Israelites and Canaanites. Providing an alternative reading of Joshua, *The Joshua Generation* finds evidence of a decentralized society composed of tribes, clans, and woman-run households, one with relevance to today when diverse peoples share the dwindling resources of a scarred land.

At the turn of the millennium, a new phenomenon emerged: conservatives, who just decades before had rejected the expanding human rights culture, began to embrace human rights in order to advance their political goals. In this book, Nicola Perugini and Neve Gordon account for how human rights--generally conceived as a counter-hegemonic instrument for righting historical injustices--are being deployed to further subjugate the weak and legitimize domination. Using Israel/Palestine as its main case study, *The Human Right to Dominate* describes the establishment of settler NGOs that appropriate human rights to dispossess indigenous Palestinians and military think-tanks that rationalize lethal violence by invoking human rights. The book underscores the increasing convergences between human rights NGOs, security agencies, settler organizations, and extreme right nationalists, showing how political actors of different stripes champion the dissemination of human rights and mirror each other's political strategies. Indeed, Perugini and Gordon demonstrate the multifaceted role that this discourse is

Get Free Ben Gurion The New Millennium Edition

currently playing in the international arena: on the one hand, human rights have become the lingua franca of global moral speak, while on the other, they have become reconstrued as a tool for enhancing domination.

A celebration of architecture from around the world profiling todays leading firms. The top one hundred firms.
