Birt and Etho are best friends, they play on Sudden Hill, making marvellous contraptions out of cardboard boxes. But then a new boy, Shu, wants to join in too. Birt isn't sure that he wants Shu to join them. Eaten up with jealousy, he goes home and refuses to come out to play. Until Etho and Shu come to his house with the most marvellous cardboard contraption so far... A compelling, poignant story about accepting someone new, with text by Linda Sarah and illustrations by Benji Davies, creator of The Storm Whale. Also by Linda Sarah: The Secret Sky Garden, illustrated by Fiona Lumbers Tom's Magnificent Machines, illustrated by Ben Mantle Also by Benji Davies: The Storm Whale Grandad's Island The Storm Whale in Winter Grandma Bird

Have you ever heard of Suggestopedia? Do you know what a gallery walk is? How about the difference between a stem and a foil? Maybe you don't think it's necessary to know these education terms. Diane Ravitch thinks otherwise. Education, like most professions, has its own unique vocabulary that is often unfamiliar to outsiders. But unlike those of other professions, Ravitch contends, the language of education must be clear and intelligible to all. Because education in large part determines the future of our society, economy, and culture, it's crucial that education issues be understood by the general public. And to understand the issues, we need to understand the specialized language used in the field. In this book, Ravitch demystifies the often-obscure and ever-changing lingo of the education field. With more than 500 entries, EdSpeak translates what Ravitch refers to as the "strange tongue" of pedagogese into plain English, adding historical context and lively commentary along the way. This glossary will serve as a valuable resource both for veteran educators who need to stay abreast of newly emerging terminology and for newcomers to the profession--be they teachers, administrators, parents, students, or just citizens who care about what happens in the classroom.

With Solutions iTools, teachers have exciting interactive whiteboard material which brings fresh stimulus to language lessons.

Professor Owen examines corporate capitalism under the Tsarist and late Soviet regimes. Covering two hundred years from the Tsarist period through perestroika and into the present, he demonstrates the historical obstacles that have confronted Russian corporate entrepreneurs and the continuity of Russian attitudes toward corporate capitalism.

Thriller.

German Short Stories for Beginners is written especially for students from beginner to intermediate level (A1-B1 on the Common European Framework of Reference). The eight captivating stories are designed to give you a sense of achievement and a feeling of progress when reading. You'll finally be able to enjoy reading in German, grow your vocabulary in a natural way, and improve your comprehension at the same time. Based on extensive research into how people most enjoy and benefit from reading in a new language, this book eliminates all the frustrations you have experienced when trying to read in German: Dull topics that are no fun to read Books so long you never reach the end Endless chapters that make you want to give up Impenetrable grammar that frustrates you at every turn Complex vocabulary that leaves you with your head buried in the dictionary Instead, you can just concentrate on what you came for in the first place - enjoying reading and having fun! If you're learning German and enjoy reading, this is the book you need to rekindle your passion for the language and take your German to the next level!

In Cancer Screening: A Practical Guide for Physicians, a panel of highly experienced clinicians and researchers from around the world present their up-to-date screening techniques for a wide variety of cancers. The techniques range from screening for breast, gynecological, and gastrointestinal cancers, to testing for urogenital, dermatological, and respiratory cancers. In addition to providing the busy practitioner with quick access to guidelines for particular cancers, the epidemiology and biology of the various cancers, as well as the sensitivity and specificity of the methods, are discussed in detail. Authoritative and physician-friendly, Cancer Screening: A Practical Guide for Physicians offers to all internists, oncologists, various subspecialists, and primary care physicians a concise practical review of cancer screening designed specifically for daily use in the consulting room.
