Containing information on the US Navy's customs and ceremonies, this new edition includes details of the recent technological advances in today's Navy. The book has sections covering weapons, ships and aircraft, training procedures and the code of military justice.

The men of the U.S. Navy's brown-water force played a vital but often overlooked role in the Vietnam War. Known for their black berets and limitless courage, they maneuvered their aging, makeshift craft along shallow coastal waters and twisting inland waterways to search out the enemy. In this moving tribute to their contributions and sacrifices, Tom Cutler records their dramatic story as only a participant could. His own Vietnam experience enables him to add a striking human dimension to the account. The terror of firefights along the jungle-lined rivers, the rigors of camp life, and the sudden perils of guerrilla warfare are conveyed with authenticity. At the same time, the author's training as a historian allows him to objectively describe the scope of the navy's operations and evaluate their effectiveness. Winner of the Navy League's Alfred Thayer Mahan Award for Literary Achievement in 1988 when the book was first published, Cutler is credited with having written the definitive history of the brown-water sailors, an effort that has helped readers better understand the nature of U.S. involvement in the war.

More than eight hundred sailors served aboard the Sterett during her hazardous and demanding duties in World War II. This is the story of those men and their beloved ship, recorded by a junior officer who served on the famous destroyer from her commissioning in 1939 to April 1943, when he was wounded at the Battle of Tulagi. Peppered with the kind of vivid, authentic details that could only be provided by a participant, the book is the saga of a gallant fighting ship that earned a Presidential Unit Citation for her part in the Third Battle of Savo Island, where she took on a battleship, cruiser, and destroyer and was the last to leave the fray. Calhoun's gripping and colorful account tells what it was like to be there during those furiously fought, close-range engagements. When published in hardcover in 1993, the book was widely praised as a good read loaded with rich and interesting details.

This work describes riverine combat during the Vietnam War, emphasizing the operations of the U.S. Navy's River Patrol Force, which conducted Operation Game Warden; the U.S. Army-Navy Mobile Riverine Force, the formation that General William Westmoreland said "saved the Mekong Delta" during the Tet Offensive of 1968; and the Vietnam Navy. An important section details the SEALORDS combined campaign, a determined effort by U.S. Navy, South Vietnamese Navy, and allied ground forces to cut enemy supply lines from Cambodia and disrupt operations at base areas deep in the delta. The author also covers details on the combat vessels, helicopters, weapons, and equipment employed in the Mekong Delta as well as the Vietnamese combatants (on both sides) and American troops who fought to secure Vietnam's waterways. Special features focus on the ubiquitous river patrol boats (PBRs) and the Swift boats (PCFs), river warfare training, Vice Admiral Elmo R. Zumwalt Jr., the Black Ponies aircraft squadron, and Navy SEALs. This publication may be of interest to history scholars, veterans, students in advanced placement history classes, and military enthusiasts given the continuing impact of riverine warfare on U.S. naval and military operations in the 21st century. Special Publicity Tie-In: Commemoration of the 50th anniversary of the Vietnam War (Commemoration dates: 28 May 2012 - 11 November 2025). This is the fifth book in the series, "The U.S. Navy and the Vietnam War." TABLE OF CONTENTS Introduction The First Indochina War The Vietnam Navy River Force and American Advisors The U.S. Navy and the Rivers of Vietnam SEALORDS The End of the Line for U.S. and Vietnamese River Forces Sidebars: The PBR Riverine Warfare Training Battle Fleet of the Mekong Delta High Drama in the Delta Vice Admiral Elmo R. Zumwalt Jr. Black Ponies The Swift Boat Warriors with Green Faces Suggested Reading

War in the Shallows, published in 2015 by the Naval History and Heritage Command, is the authoritative account of the U.S. Navy's hard-fought battle along Vietnam's rivers and coastline from 1965-1968. At the height of the U.S. Navy's involvement in the Vietnam War, the Navy's coastal and riverine forces included more than 30,000 Sailors and over 350 patrol vessels ranging in size from riverboats to destroyers. These forces developed the most extensive maritime blockade in modern naval history and fought pitched battles against Viet Cong units in the Mekong Delta and elsewhere. War in the Shallows explores the operations of the Navy's three inshore task forces from 1965 to 1968. It also delves into other themes such as basing, technology, tactics, and command and control. Finally, using oral history interviews, it reconstructs deckplate life in South Vietnam, focusing in particular on combat waged by ordinary Sailors. Vietnam was the bloodiest war in recent naval history and War in the Shallows strives above all else to provide insight into the men who fought it and honor their service and sacrifice. Illustrated throughout with photographs and maps. Author John Darrell Sherwood has served as a historian with

the Naval History and Heritage Command (NHHHC) since 1997. -- Provided by publisher.

You're about to discover how to prepare yourself for the biggest decision you've probably ever had to make in your life. It isn't an easy one and not a decision you should make lightly. In my book I describe from first hand experience of what you'll be running into. I give advice based on first hand experience on what to know and recommendations you should heed before joining. The best way to prepare for joining the Navy is to do your research and know everything you can so you can make an informed decision.

There were no dry runs for Seawolves in Vietnam. They put their lives on the line—every time. In the Viet Cong-infested Mekong Delta, where small SEAL teams were always outgunned and outnumbered, discovery brought swift, deadly consequences— and a radio call for backup from the United States Navy's very best: the Seawolves. The whir of approaching rotor blades signaled their arrival as they tore through the jungle at treetop level, gunners hanging off the skids, shooting M-60s, raining down their lethal mix of high explosives and incendiary death. Seawolf Dan Kelly describes the origins of this extraordinary outfit. Put through a training program unlike any other, these men emerged to perform unparalleled feats of courage. The stories of these elite warriors capture America's real heroes in all their guts and glory, and demonstrate why the Seawolves are known as the most successful and most decorated unit in the Vietnam War.
