The 850 is a great bike - overpriced at new, overpriced by BMW dealers (it costs as much as an 1100/1150 to make). It was made to fulfill a need in the German market (just like the old R450). It has a smoother, free revving engine, a completely different feel to the 1150.

BMW's take on the cruiser market is expectedly different, but that lacklustre engine kills it before it even breathes. Passable as a styling exercise (for Geography teachers), but as little else.
