The functions is to alert you to an error or malfunction so you can get the problems fixed before it gets worse. Here is how it Works What you should know is that the "Service Engine Soon" light in your BMW is similar to a "Check Engine" light in some other cars.

HOW TO RESET BMW SERVICE ENGINE SOON LIGHT + reset service —

If your BMW check engine light (or service engine soon light) stays on, it means that the Onboard Diagnostic System (also known as Digital Motor Electronics DME) has detected a problem with the emission system, engine, or transmission. BMW check engine light may come on due to something as simple as a loose gas cap, but it can also indicate an expensive engine or transmission problem.

Troubleshooting BMW Check Engine Light & Service Engine Soon

Here are some of the things that the check engine light could indicate and the best way to address the issues. These are not always detrimental. The engine light is designed to alert the driver that the BMW is in need of service or repair. For most drivers, this can ensue a huge wave of anxiety and distress; you begin to imagine all the worst-case scenarios that the light could indicate, and dollar signs begin to flash across your mind.

BMW Service Engine Soon Light is On, Now What? - Pro Car —

How It Works. The "Service Engine Soon" light in your BMW is similar to a "Check Engine" light in other cars. Your car has a computer which runs diagnostic tests while your car is running. If something comes back faulty or negative, the light comes on.

Service engine soon light - 2002 BMW 325i

The Service Engine Light on your BMW 3 Series is monitored and controlled by the Engine Control Module or ECM. It keeps track of all routine maintenance and servicing requirements of your BMW. When this light illuminates, you should have your BMW serviced before attempting to manually reset the light. The best way to reset it is to use a computerized scan tool obtained from your local auto parts retailer.

How to Manually Reset the Service Engine Light in a BMW 3 —

Another possible culprit triggering the "service engine soon" light is misfiring spark plugs. Spark plugs on older vehicles (before 1996) needed to be changed every 40,000 to 50,000 kilometers; on more modern vehicles spark plugs can go to 150,000 km before needing to be changed. Faulty spark plugs can cause your engine to misfire.
