Boudicca (Famous People, Famous Lives) (Book) - Ancient ...
Boudicca's husband, Prasutagus, was king of the Iceni (in what is now Norfolk) as a client under Roman suzerainty. When Prasutagus died in 60 with no male heir, he left his private wealth to his two daughters and to the emperor Nero, trusting thereby to win imperial protection for his family.

occupation in AD60 or 61. She was the joint ruler of the British Iceni tribe, who lived in a region of Britain now known as East Anglia, with her husband, Prasutagus. The Romans had settled in Britain around AD43.

Two thousand years ago, when the Romans invaded Britain, not everyone went down without a fight. Discover a wild Britain and its oppressed peoples and how one brave woman defied the might of Rome. Learn how both the Romans and British lived, how they organised themselves, and how different peoples treated each other. Brilliant line illustrations bring to life the excitement of battle and also the harshness and tragedy of defeat. The book is a handy companion to those readers learning about the Romans in Key Stage 2. Each title in this series tells the story of a man or woman whose dedication to their chosen cause led to changes that affect all our lives today. Each includes a vivid description of the world in which the famous person lived.

This diachronic study of Boudicca serves as a sourcebook of references to Boudicca in the early modern period and gives an overview of the ways in which her story was processed and exploited by the different players of the times who wanted to

give credence and support to their own belief systems. The author examines the different apparatus of state ideology which processed the social, religious and political representations of Boudica for public absorption and helped form the popular myth we have of Boudica today. By exploring images of the Briton warrior queen across two reigns which witnessed an act of political union and a move from English female rule (under Elizabeth I) to British/Scottish masculine rule (under James VI & I) the author conducts a critical cartography of the ways in which gender, colonialism and nationalism crystallised around this crucial historical figure. Concentrating on the original transmission and reception of the ancient texts the author analyses the historical works of Hector Boece, Raphael Holinshed and William Camden as well as the canonical literary figures of Edmund Spenser, William Shakespeare and John Fletcher. She also looks at aspects of other primary sources not covered in previous scholarship, such as Humphrey Llwyd's Breuiary of Britayne (1573), Petruccio Ubaldini's Le Vite delle donne illustri, del regno d'Inghilterra, e del regno di Scotia (1588) and Edmund Bolton's Nero Caesar (1624). Furthermore, she incorporates archaeological research relating to Boudica.

This vivid and bloodthirsty tale explores the true story of the woman who took on the might of the greatest power of the ancient world and nearly drove it out of part of its empire.

When Roman troops threatened to seize the wealth of the Iceni people, their

queen, Boudicca, retaliated by inciting a major uprising, allying her tribe with the neighbouring Trinovantes. The ensuing clash is one of the most important - and dramatic - events in the history of Britain, standing testament to what can happen when an insensitive colonial power meets determined resistance from a subjugated people head-on. In this fascinating account of a legendary figure, Miranda Aldhouse-Green raises questions about female power, colonial oppression, and whether Boudicca would be seen today as a freedom fighter, terrorist or martyr.

When the Romans occupied the southern half of Britain in AD 43, the Iceni tribe quickly allied themselves with the invaders. Having paid tribute to Rome, they continued to be ruled by their own kings. But 17 years later, when Prasutagus, the king of the Iceni, died, the Romans decided to incorporate his kingdom into the new province. When his widow Boudicca protested, she "was flogged and their daughters raped", sparking one of the most famous rebellions in history. This book tells how Boudicca raised her people and other tribes in revolt, overran the provincial towns of Camulodunum (Colchester), Londinium (London) and Verulamium (St Albans), destroyed the IX Legion, and nearly took control of the fledgling Roman province, before being finally brought to heel in a pitched battle at Mancetter.

Londinium is burning. Gaius Suetonius Paulinus, newly appointed governor of Roman Britain, is charged by an increasingly unstable Emperor Nero with a difficult task—the untamed island on the fringes of the empire must earn a profit. To do so, Suetonius pursues the last of the Druids into Wales and, along the way, subdues the fractious Celtic chieftains who sit atop a fortune in gold and rare metals. Meanwhile, in the provincial capital of Londinium, war is brewing. As Nero's corrupt tax officials strip the British tribes of their wealth and dignity, an unlikely leader arises—Queen Boudicca, chieftain of the Iceni, who unites the tribes of Britain and leads them on a furious and bloody quest for vengeance and liberty. A novel told in the form of a memoir, *Imperial Governor* is a compelling and impeccably researched portrait of Gaius Suetonius Paulinus, Roman general and first-century Governor of Britannia, who unexpectedly found himself facing one of the bloodiest

rebellions against Roman rule. Shipway's masterful military adventure has long been considered one of the most accomplished works of historical fiction set in the Roman Era, providing fascinating detail of life in Roman Britain and within the Roman Legions—and a riveting saga of uprisings, war, and conquest in the ancient world.
