Large white butterfly (Pieris brassicae) Length: 45mm Appearance: The large white caterpillar is pale green-yellow with striking black spots and visible hairs on its body. Its bold appearance is a warning to predators of its unpleasant taste. This is due to the poisonous mustard gas its body accumulates.

The toughest part of the job was learning a new technique on new projects that would be passed down, but in a way that was also the fun part as it would test your welding ability and give you the chance to try something you hadn't tried before. Probably the most attractive part of the job was atmosphere and relationship you had with fellow co-workers, as it was a production line, each person ...

This Operator Instruction Manual has been designed to help you operate and maintain your electrical generator set correctly. We recommend that the operator should take the time to read this manual. Certain tasks may require work to be completed by specifically trained technicians, an operator should only attempt a task detailed for an operator to complete. This generator set is one of a family ...
