boundaries, a child may be too young to understand when abuse is happening—or that it ' s wrong. Now available in a bilingual English-Spanish edition, *My Body Belongs to Me /Mi cuerpo me pertenece* offers a tool parents, teachers, and counselors can use to sensitively share and discuss the topic of sexual abuse. Through simple language and colorful illustrations, this straightforward, gentle book guides young children to understand that their private parts belong to them alone. The overriding message is that if someone touches your private parts, tell your mom, your dad, your teacher, or another safe adult. In a country where, according to estimates from the CDC, one in four girls and one in six boys will be sexually abused before age eighteen, this book is an essential abuse-prevention resource to help children feel, be, and stay safe. Using her experience working as a New York City prosecutor of child abuse and sex crimes, Jill Starishevsky has crafted a book that addresses body boundaries in a way that kids can understand and that doesn ' t seem scary or heavy-handed. Includes, in both English and Spanish, a letter to adults at the beginning and a section in the back with suggestions and resources for discussing the book with children.

Answers troubling questions parents have concerning their babies and toddlers from snoring and swollen breasts in babies to misshapen heads and baby acne.

Presents advice for new parents on taking full advantage of the early development years of a child's life, providing tips to maximize an infant's mental and emotional growth.

As a child, there are constantly people trying to pick you up, hug you, or tickle you. Sometimes, though, children fall victims to people who try to touch them inappropriately. But how do you tell someone, most likely an adult, that you don't want to be touched? Or, if it has already happened, how do you tell an adult you trust about what happened? You're only a child, and they're the adults. Why would they believe you? *My Body Belongs to Me!* is an educational tool to help instill confidence in children when it comes to their bodies. The narrative of the story is led by a girl named Clara, who encourages kids to say "no" if they are uncomfortable with physical contact. The narrator gives readers tips about what they can say or do to avoid unwanted physical contact, or how to tell the right people in the event it has already occurred. *My Body Belongs to Me!* is an invaluable resource that gives children a voice in uncomfortable situations. Suited for children ages 3 to 6, this should be in all doctor's offices, counselor's offices, and all parents should read to their preschool-aged children to teach them how to effectively say no to unwanted touching and how to report unwanted touching if it does occur.
