In this book, author Alan Tutt gives you EVERYTHING you need to understand the Power of Belief and put it into ACTION in your life. You'll get hundreds of references to scientific studies which have PROVEN that our beliefs have a tremendous impact on the events in our lives. You'll also get a complete bibliography (list of other books) to get more information if you feel you need it. Alan also explains, in minute detail, why the connection between our beliefs and reality is not as obvious as you'd think it should be. Once you understand a concept Alan calls the "Belief Hierarchy," it all makes sense. Of course, understanding WHY the Power of Belief works is only part of the solution. Knowing HOW to use it is where the real results begin. You'll learn about a remarkable way to actually MEASURE the strength of any belief you current have, and several lists of questions to use to map our your current belief system. Once you know where you are now, you'll have an easy time figuring out how to get to where you want to be. In fact, Alan Tutt shows you 3 different ways to discover what you currently believe. One way, a process he calls "Belief Archeology," will uncover hidden beliefs behind specific issues, and will show you exactly how to map out your transformation process. From here, "Choose To Believe" gives you over a dozen practical, easy to use, techniques to change any belief. If you wanted, you could convince yourself that $2+2=6$, but that probably wouldn't be very useful. Changing some of your beliefs may at first seem just as outlandish, such as believing that money can come out of nowhere, or that

loving relationships "just happen." And to give you a COMPLETE system, Alan also shows you how to get the most dramatic results with the least amount of time and effort. In fact, as several of the case studies in the book show, you can change major beliefs with a simple decision to do so. And yes, he shows you HOW. You really CAN have it all, when you CHOOSE TO BELIEVE!

As I look back on my life, some of which appears here in print, I find that who and what we are begins when we are born. In the beginning we have no choice as to who we are as it is instilled in us through the prominent people in our lives, as well as the environment in which we live. Yet as we grow in consciousness, the responsibility falls more with us than with anyone or anything else. It becomes all about "our" choices. This book is about the struggles in my journey of finding that I've always had the power to make my life what I want it to be. My intention for this book is to help, those who now suffer as I did, to find hope. To tell you not to give up! Not when you're so close. Change what you believe about yourself and you will begin to change your life. For the better! Your own personal victory is coming, if you choose it to be so!

Tells how to increase the three factors of effective prayer: faith, focus and a feeling of harmony with God.

When in June 1968, clad in black leather, a nervous Elvis Presley made his television "Comeback Special", Alan Fortas was one of the five friends asked to be on stage with him. Fortas ultimately spent nearly twelve years working for Elvis, having been asked to join his fraternity of bodyguards and close buddies that came to be known as "The Memphis Mafia" back in 1958. He lived, travelled and played hard with Elvis during that time, watching Elvis become increasingly disillusioned with the endless stream of movies he was forced to act in, saw him become increasingly reliant on drugs, and witnessed Elvis's colourful sex life. The only other memoir of Elvis that can offer such genuine inside knowledge and intimacy is *Elvis and the Memphis Mafia*, by three other members of his bodyguard fraternity, which *Uncut* magazine acclaimed as "the best Elvis book written to date", and which Aurum has already re-published and seen reprint four times. Now it re-issues Alan Fortas' book, which has been out of print for over ten years. Written in collaboration with Elvis authority Alanna Nash, who also collaborated on *Memphis Mafia* and wrote the definitive biography of Elvis's sinister manager, Colonel Tom Parker, it is a must for every Elvis fan. Alan Fortas subsequently worked as an investment banker in Memphis, and died in 1992. Alanna Nash is the acclaimed author of *The Colonel*, a biography of Colonel Tom Parker (also published by Aurum, 978 1 84513 025 1), and co-author of *Elvis and the Memphis Mafia*. She lives in Louisville, Kentucky.

Partial Differential Equations presents a balanced and comprehensive introduction to the concepts and techniques required to solve problems containing unknown functions of multiple variables. While focusing on the three most classical partial differential equations (PDEs)—the wave, heat, and Laplace equations—this detailed text also presents a broad practical perspective that merges mathematical concepts with real-world application in diverse areas including molecular structure, photon and electron interactions, radiation of electromagnetic waves, vibrations of a solid, and many more. Rigorous pedagogical tools aid in student comprehension; advanced topics are introduced frequently, with minimal technical jargon, and a wealth of exercises reinforce vital skills and invite additional self-study. Topics are presented in a logical progression, with major concepts such as wave propagation, heat and diffusion, electrostatics, and quantum mechanics placed in contexts familiar to students of various fields in science and engineering. By understanding the properties and applications of PDEs, students will be equipped to better analyze and interpret central processes of the natural world.

Plato's Republic is one of the best-known and most widely-discussed texts in the history of philosophy. But how might we get to the heart of this work today, 2,500 years after its original composition? Alain Badiou breathes life into Plato's landmark text and revives its universality. Rather than producing yet another critical commentary, he has instead worked closely on the original Greek and, through

spectacular changes, adapted it to our times. In this innovative reimagining of Plato's work, Badiou has removed all references specific to ancient Greek society—from lengthy exchanges about moral courage in archaic poetry to political considerations mainly of interest to the aristocratic elite—and has expanded the range of cultural references. Here, philosophy is firing on all cylinders: Socrates and his companions are joined by Beckett, Pessoa, Freud, and Hegel, among others. Together these thinkers demonstrate that true philosophy endures, ready to absorb new horizons without changing its essence. Moreover, Badiou—who is also a dramatist—has transformed the Socratic dialogue into a genuine oratorical contest. In his version of the Republic, the interlocutors do much more than simply agree with Socrates. They argue, stand up to him, put him on the spot, and show thought in motion. In this work of dramatic scholarship and philosophy, we encounter a modern version of Plato's text that is alive, stimulating, and directly relevant to our own world.

“An engrossing tale [that] provides plenty of food for thought” (People, Best New Books pick), this playful, wise, and profoundly moving second novel from the internationally bestselling author of *How Proust Can Change Your Life* tracks the beautifully complicated arc of a romantic partnership. We all know the headiness and excitement of the early days of love. But what comes after? In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children—but no long-term relationship is as simple as “happily ever after.” *The Course of Love*

explores what happens after the birth of love, what it takes to maintain, and what happens to our original ideals under the pressures of an average existence. We see, along with Rabih and Kirsten, the first flush of infatuation, the effortlessness of falling into romantic love, and the course of life thereafter. Interwoven with their story and its challenges is an overlay of philosophy—an annotation and a guide to what we are reading. As *The New York Times* says, “The Course of Love is a return to the form that made Mr. de Botton’s name in the mid-1990s...love is the subject best suited to his obsessive aphorizing, and in this novel he again shows off his ability to pin our hopes, methods, and insecurities to the page.” This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term. The result is a sensory experience—fictional, philosophical, psychological—that urges us to identify deeply with these characters and to reflect on his and her own experiences in love. Fresh, visceral, and utterly compelling, *The Course of Love* is a provocative and life-affirming novel for everyone who believes in love. “There’s no writer alive like de Botton, and his latest ambitious undertaking is as enlightening and humanizing as his previous works” (*Chicago Tribune*).

THE ELEVEN—an alliance of ultimate predators. Primal, lethal, irresistible. After millions of years, an ancient evil has returned. Only the Eleven can save humanity from extinction.
