All Marines share a common warfighting belief: "Every Marine a rifleman." This simple credo reinforces the belief that all Marines are forged from a common experience, share a common set of values, and are trained as members of an expeditionary force in readiness. As such, there are no "rear area" Marines, and no one is very far from the fighting during expeditionary operations. The Marine rifleman of the next conflict will be as in past conflicts: among the first to confront the enemy and the last to hang his weapon in the rack after the conflict is won. Rifle Marksmanship, a Marine Corps Reference Publication, provides techniques and procedures for Marine Corps rifle marksmanship. Every Marine is first and foremost a rifeman. Rifle Marksmanship reflects this ethos and the Marine Corps' warfighting philosophy. This publication discusses the individual skills required for effective rifle marksmanship and standardizes the techniques and procedures used throughout the Marine Corps. It constitutes the doctrinal basis for all entry-level and sustainment-level rifle marksmanship training.

"[This book] is a short history of the US Army Training and Doctrine Command (TRADOC) as it is completing four decades of organizational existence"--P. iv.

THE MOST AUTHORITATIVE AND COMPREHENSIVE LONG-RANGE COMBAT SHOOTING BOOK IN THE WORLD (FM 3-22.10 / FM 23-10 / TC 3-22.10) Largest format available anywhere - giant 8.5" x 11" - LARGE, CLEAR PRINT 450+ PAGES - COMPLETE & UNABRIDGED The indispensable manual for service personnel, civilian contractors, law enforcement, competition shooters, hunters, preppers, and more. Created and trusted by U.S. military forces. Profusely illustrated throughout. Essential reference for the bookshelf or range bag of any long-range marksman, particularly the M24, M107 or M110 Sniper Systems operator and instructor. Important: unlike most other editions on Amazon, this is NOT the basic, outdated FM 23-10: this is the completely-overhauled 450+ page edition (FM 3-22.10). "Batteries last hours, books last decades. Get the print edition!" Since 1987 the US Army Sniper School at Fort Benning, Georgia, has trained Active Duty, Reserves and National Guard soldiers to become long-range marksmen par excellence, capable of eliminating high-value targets, gathering intelligence, and protecting their comrades with a mixture of stealth, patience, situational awareness, cunning, and mastery of the long-range rifle. This book contains the distilled wisdom of the Sniper School's instructors and expert marksmen, giving you over 450 pages of unique insight into the long range combat shooter's art. This edition supersedes the old, obsolete FM 23-10 "Nothing chills the blood of a Soldier on the battlefield more than the crack of a rifle shot and the cry of "SNIPER!" A skilled sniper can stop even the largest units in their tracks with a few well-aimed shots that take out key personnel such as scouts or officers, seriously damaging the enemy's morale." - Michael E. Haskew. The Sniper at War: From the American Revolutionary War to the Present Day "Certainly there is no hunting like the hunting of an armed man, and those who have hunted armed men long enough and liked it never care for anything else thereafter." - Ernest Hemingway, "On the Blue Water," Esquire, April 1936 INCLUDES: INTRODUCTION EQUIPMENT - PRIMARY WEAPONS - OTHER EQUIPMENT FIELD TECHNIQUES - CAMOUFLAGE - MOVEMENT - POSITIONS - OBSERVATION - TARGET DETECTION & SELECTION - RANGE ESTIMATION - RECORDS MARKSMANSHIP - FUNDAMENTALS - BALLISTICS - EFFECTS OF WEATHER - HOLDOFF - MOVING TARGETS - OBSERVER TRAINING - SNIPER DATA BOOK - CHEMICAL, BIOLOGICAL & NUCLEAR CONSIDERATIONS TRACKING & EVASION - TRACKING - COUNTER-TRACKING - EVASION, RESISTANCE & ESCAPE MISSION PREPARATION & EXECUTION - PLANNING & COORDINATION - MISSION EXECUTION SNIPER EMPLOYMENT SNIPER OPERATIONS - COMBAT OPERATIONS - URBAN OPERATIONS - CIVIL SUPPORT OPERATIONS - COUNTERSNIPER OPERATIONS - COUNTERIED AND TRACKING OPERATIONS SNIPER SUSTAINMENT TRAINING RANGE SAFETY & RISK MANAGEMENT MISSION PACKING LISTS LEADER'S CHECKLIST M24 SNIPER WEAPON SYSTEM COMMUNICATIONS - FIELD-EXPEDIENT ANTENNAS - UNUSUAL CONDITIONS - REPORT FORMATS SURVIVAL MAINTENANCE - INSTRUCTIONS - M110 SEMIAUTOMATIC SNIPER SYSTEM - M107 LONG-RANGE SNIPER RIFLE - M24 SNIPER WEAPON SYSTEM PRIMARY SNIPER WEAPON SYSTEMS OF THE WORLD CRITICAL TASK LIST GLOSSARY, REFERENCES & INDEX Search Amazon for 'CARLILE MILITARY LIBRARY' to find more TOP-FLIGHT, SQUARED-AWAY publications for your professional bookshelf! The M72 LAW and the RPG-7 are the iconic rocket-powered anti-tank weapons of the post-WW2 era, both are still in use to this day in conflicts around the world. This book examines each in detail using a variety of historical documents, both operator manuals and technical briefings developed originally by the US Training and Doctrine Command (TRADOC). Topics for the M72 covered are basic function and specifications, firing preparation, back blast awareness, firing positions and aiming/firing steps, plus failure to fire procedures. The RPG-7 information extensively covers component and function descriptions, weapon capabilities, optical sight details, Hit/kill probabilities, Soviet deployment doctrine, specific counter-measures and more. Well illustrated with over 70 images and diagrams. An in-depth review of each weapon system that will please any student of military studies.

A veteran of both world wars and the Korean War, Gen. Gerald C. Thomas helped change the Marine Corps in the twentieth century. Though not as well-known as John Lejeune, Chesty Puller, and A. A. Vandegrift, he was, as this book clearly demonstrates, responsible for the transformation of the Marines into a highly effective amphibious assault force and Cold War force in readiness. In this volume, the well-known military historian Allan R. Millet provides not only an assessment of General Thomas's career but an objective analysis of the creation of the modern Marine Corps. At the same time, he offers an expert interpretation of the "inside" leadership of the Corps. Millet has based the book on documentary research in private and official papers, including the general's own oral memoir and draft autobiography.

Of all the infantry small arms developed during World War II, one that generated the most interest was the German 'assault rifle', the SIG 44 Sturmgewehr. This innovative weapon inspired the Soviet AK-47 in 7.62x39mm calibre. In the West, the NATO countries looked hard at new weapons to upgrade their own infantry arsenals and counter the AK-47, resulting in the design of the Fusil Automatique Léger or FAL. It proved to be a successful battle rifle and was soon adopted by the military and police forces of no fewer than 93 nations. The FAL dominated the militaries of the West to such a degree that its nickname became the Right Arm of the Free World. The FAL fulfilled every role it was asked to perform and remains a viable and well-respected weapon to this day.

This Tactical Manual (TM) is the result of more than a quarter century of experience at the highest professional levels, based on a solid foundation of SOF selection and training, reinforced by deployments to multiple conflict zones spanning pre-9/11 and the current Global War On Terror. The contents of the TM are combat proven and time tested small unit tactics employed on Light Infantry, Special Operations and Paramilitary deployments. The TM is intended to support training and operations for small tactical units. The TM utilizes a number of sources, including United States and British Army doctrine, mixed with training and operational best practices and lessons learned. The TTPs laid out are ideal for special operations, light infantry and paramilitary tactical organizations, based on proven tactical principles. Max Velocity Tactical operates the Velocity Training Center (VTC) tactical and leadership training facility near to Romney, West Virginia, where we provide training for US Special Operations Forces and Responsible Citizens. MVT has established a reputation on the leading edge of tactical live fire and force on force training, we are dedicated to developing tactical excellence.
