It challenges both researchers, practitioners and students to reach beyond the celebration of diversity, to consider how to construct new alliances and purpose.~~

Critical Issues in Clinical Practice | SAGE Publications Ltd

Clinical and Practice Issues in Adoption provides a solid review of the historical and societal context, ethics, and practice of adoption of infants and older children. Clinical and Practice Issues in Adoption is well organized and quite readable, at the level of a college text. The chapter summaries and the introductory and concluding chapters pull together the diverse views and themes.

Clinical and Practice Issues in Adoption

Ethics is about judgment, which is rarely black and white. This paper highlights some of the ethical dilemmas that face practising clinicians in their everyday life and restates how useful the General Medical Council guidance is to make appropriate decisions. The authors have faced all eight of the clinical scenarios in this paper in their routine clinical practice.

Ebola: Social Work Practice Issues In our diverse roles as social workers, and across our various settings, we promote well-being and resourcefulness, safety and calm during times of crisis. Social workers practice in hospitals, emergency departments, and public health clinics, likely with families and communities grieving the loss of loved ones to Ebola in their home country.

Practice Issues - National Association of Social Workers

Clinical governance is " a system through which NHS organisations are accountable for continuously improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care will flourish." (Scully and Donaldson 1998, p.61) Clinical governance is an umbrella term.

Clinical governance | Clinical | Royal College of Nursing

Nursing students experience ethical problems in clinical practice in a different way from registered nurses. In order to develop ethical reasoning and competence in nursing students, nurse educators must recognise the unique issues students face. This research described the occurrence of ethical issues in clinical practice for 373 undergraduate nursing students who responded to a national questionnaire investigating the frequency of pre-determined ethical issues and the corresponding level ...
