Collocation refers to words that are found together in language. Collocations can be fixed, where it is difficult to replace one of the words with an alternative, or freer, allowing for more choice of words. Example 'Utter disaster' is a fixed collocation, as there are few words that can be used instead of 'disaster'.

## Fun ways to teach English collocations | British Council

There is often no reason for a collocation. People just put certain words together more often than they put other words together. In fact, the use of collocations has become popular in English and language teaching because of corpus linguistics. Corpus linguistics study huge volumes of data of spoken and written English to come up with statistics on how often people use certain words and word combinations.

There are different kinds of collocations in English. Strong collocations are word pairings that are expected to come together, such as combinations with 'make' and 'do': You make a cup of tea, but you do your homework. Collocations are very common in business settings when certain nouns are routinely combined with certain verbs or adjectives. For example, draw up a contract, set a price, conduct negotiations, etc.
