In my review of the 2009 version, I noted, ‘ This is what a modern textbook should be. It is concise yet comprehensive in the breadth of topics and, as the title suggests, robust with color photographs of extraordinarily good quality. ’ That statement stands for this book as well -- this is what a modern textbook should be. Reiterating my thoughts from 2009, ‘ By far, this is one of the best, most useful textbooks I have seen in a very long time. It is a must for the library of every primary care physician." --5 Stars--Doody's Review Service This beautiful full-color resource delivers everything practicing
