Copeland General Product Guide 2018 - RCPSRL

Copeland Scroll™ compressors are delivered with brazing or Rotalock connections. There are options to fit either Rotalock valves, Rotalock adaptors or just make brazing connections. NOTE: For AC and HP applications, we recommend using a K2 contactor for the safety chain in order to comply with EN 60335.

and no longer available for downloads. PSS is an integrated PC based software tool that allows users to select and generate compressor performance.

Product Selection Software | Emerson US Copeland Scroll compressors work with one scroll orbiting in a path defined by a matching fixed scroll. The fixed scroll is attached to the compressor body while the orbiting scroll is coupled to the crankshaft. The orbiting motion creates a series of gas pockets traveling between the two scrolls.

Copeland Brand | Emerson US Copeland Scroll™ Compressors for Commercial Applications We offer the widest range of commercial solutions and provide technologies that improve efficiency, comfort, and reliability. From Standard of Comfort to Standard of Quality

hp to 4 hp are available as air-cooled or water-cooled versions and use reed valve technology. The S-series is comprised of models 2S, 3S, 4S, 6S and 8S. It is suction gas-cooled and ranges from 5 hp to 70 hp.

Semi-hermetic Compressors

Scroll Compressors at very competitive prices often with a next day delivery option. ACES stock a large range of Maneurop, Danfoss Performa and Copeland Scroll Compressors. A scroll compressor is a specially designed compressor that works in a circular motion, as opposed to up-and-down piston action. A scroll compressor uses two interweaving scrolls to pump, compress or pressurize fluids such as liquids and gases.
