With this new book you'll quickly learn, step-by-step, the basic methods (and some valuable tricks of the trade) to master high-speed metal stud framing in commercial construction. If you're an experienced wood framer, you already have many of the skills you'll need. This manual, written by a framer who runs work for one of the largest

Online Library Craftsman String Trimmer Manual File

metal stud contractors in the country, tells you just about everything you need to know to transfer those skills to metal stud framing in commercial buildings.

Everything you need to know to estimate, build, and repair practically every type of roof covering: asphalt shingles, roll roofing, wood shingles & shakes, clay tile, slate, metal, built-up, and elastomeric. Shows how to measure and estimate most roofs (including estimating shortcuts discovered by the author), how to install leak-proof underlayment and flashing, and how to solve problems with insulation, vapor barriers, and waterproofing. Over 300 large, clear illustrations that help you find the answers to all your roofing questions.
