I gave the solutions manual one more star than this forgetful, generic physics book (annoying to follow, BTW). Written like an eighth grade book compared to what I can get online for about \$10 to \$15 overseas. Cutnell and Johnson, WHY EVEN WRITE THIS - - you never challenge the student in a significant way. Typical illustrations.

The Student Solutions Manual to accompany Physics 11E contains the complete solutions to those Problems in the text that are marked with an "SSM" icon. There are about 600 Problems, and they are found at the end of each chapter in the text. Step by step solutions are provided, and most are comprised of two parts, a REASONING part, followed by a SOLUTION part. The REASONING part explains what motivates the authors' procedure for solving the problem, before any algebraic or numerical work is done. During the SOLUTION part, numerical calculations are performed, and the answer to the problem is obtained.
