Deep Learning - CNN (Convolutional Neural Network) - RNN (Recurrent Neural Network) - GAN (Generative Adversarial Network) - DBN (Deep Belief Network) - DBM (Deep Boltzmann Machines) Related conferences - NIPS 2017, The 31st Annual Conference on Neural Information Processing Systems. - ICML 2017, The 34th Annual International Conference on Machine Learning.

DEEP LEARNING - Korea University

The Machine Learning and Vision Lab (MLV) at Korea University is directed by Hyunwoo J Kim. We are tackling fundamental open problems in machine learning and computer vision to achieve a deep understanding of the visual world. High-level visual perception involves automated image and video analysis, computational geometry, and visual reasoning.

Korea University - Machine Learning & Vision Lab

I am looking for talented and motivated graduate students, postdocs, and undergraduate interns with interest in Computer Vision, Machine Learning, and Deep Learning . If you're interested, please contact me through email (seungryong_kim@korea.ac.kr). 12/2020, Our paper on domain adaptive semantic segmentation was accepted to AAAI 2021.

Seungryong Kim - Korea University

Language learning in Korea is not only the most effective way to learn and appreciate Korean, but it ' s also the most enjoyable, too. Life outside the Korean language school. Korea is known for its bright lights and fast paced culture but there ' s so much more to the country than just that. As a Korean language student in Seoul, you ' ll have ...

Learn Korean in Korea - Study Korean in Korea | EF

Yonsei University was established in 1885 and is the oldest private university in Korea. Yonsei ' s main campus is situated minutes away from the economic, political, and cultural centers of Seoul ' s metropolitan downtown. Yonsei has 3,500 eminent ...

Yonsei University Online Courses | Coursera

Offered by Yonsei University. Your smartphone, smartwatch, and automobile (if it is a newer model) have AI (Artificial Intelligence) inside serving you every day. In the near future, more advanced " self-learning " capable DL (Deep Learning) and ML (Machine Learning) technology will be used in almost every aspect of your business and industry.

Deep Learning for Business | Coursera

Official website for studying in Korea run by the Korean government. Information about language courses, universities, scholarships, job vacancies, online application is available

Study in Korea | run by Korean Government

Yes - or, eung, in Korean!Coursera offers opportunities to learn a wide range of foreign languages, including Korean. You can learn about the Korean language as well as aspects of Korean culture, economics, and politics from Yonsei University, one of the most prestigious universities in South Korea.
