The blowout of
the Macondo well
on April 20,
2010, led to
enormous
consequences for
the individuals
involved in the

Online Library
Deep Water The
drilling
operations, and
for their
families. Eleven
workers on the
Deepwater
Horizon drilling
rig lost their
lives and 16
others were
seriously
injured. There
were also
enormous

Online Library

Deep Water The

consequences for
the companies
involved in the
drilling
operations, to
the Gulf of
Mexico
environment, and
to the economy
of the region
and beyond. The
flow continued
for nearly 3
months before

Online Library

Deep Water The

the well could be completely killed, during which time, nearly 5 million barrels of oil spilled into the gulf. Macondo Well-Deepwater Horizon Blowout examines the causes of the blowout and provides a

Online Library Deep Water The

series of

recommendations,
for both the oil
and gas industry
and government
regulators,
intended to
reduce the
likelihood and
impact of any
future losses of
well control
during offshore
drilling.

Online Library Deep Water The

According to
this report,
companies
involved in
offshore
drilling should
take a "system
safety" approach
to anticipating
and managing
possible dangers
at every level
of operation --
from ensuring

Online Library
