In these pages Bernardo Olivera helps us to discern and recognize how the devil can act in our life and what kind of influence he can have. What is the relationship between Satan and the spiritual combat implied in our own journey to union with God? This book brings together the advice of the principal spiritual masters who have treated the subject with the realism that comes from their own experience of the devil's worst temptations, such as the laziness, bitterness and indifference that comes from the vice of acedia. The call is not to fight Satan directly, but to persevere in the humility and patience of Christ.

Reporting from war zones around the globe, acclaimed journalist William Shawcross gives us an unforgettable portrait of a dangerous world and of the brave men and women, ordinary and extraordinary, who risk their lives to make and keep the peace. The end of the Cold War was followed by a decade of regional and ethnic wars, massacres and forced exiles, and by constant calls for America to lead the international community as chief peace-keeper. The efforts of that community -- identified with the United Nations but often dominated by the world's wealthy nations -- have had mixed results. In Africa, the West is accused of indifference or too little, too late. In Cambodia, the UN presides over free elections, but the results are overridden. In Iraq, Saddam Hussein continues to defy the UN, and in Bosnia and Kosovo, the West acts hesitantly after terrible slaughter and ethnic cleansing. Shawcross, a veteran of many war zones, has had broad access to global policymakers, including UN secretary general Kofi Annan, high American diplomats, peacekeepers and humanitarian-aid professionals. He has traveled with them to some of the world's most horrifying killing fields. Deliver Us from Evil is his stark, on-the-ground report on the many crises faced by the international community and its servants as they struggle to respond around the world. He brings home the price many have paid attempting to restore peace and help alleviate terrible suffering. He illuminates the risks we face in a complex and dangerous world. Some critics have concluded that some interventions may prolong conflict and create further casualties. The lesson we learn from ruthless and vengeful warlords the world over is that goodwill without strength can make things worse. Shawcross argues that recent interventions -- in Kosovo and East Timor, for example -- provide reason for concern as well as hope. Still, the unmistakable message of the past decade is that we cannot intervene everywhere, that not every wrong can be righted merely because the international community desires it, or because we wish to remove images of suffering from our television screens. Nor can we necessarily rebuild failed states in our image. When we intervene, we must be certain of our objectives, sure of popular support and willing to expend the necessary resources -- even lives. If our interventions are to be effective and humane, they must last for more than the fifteen minutes of attention that the media accord to each succeeding crisis. That is a tall order. As Shawcross concludes, "In a more religious time it was only God whom we asked to deliver us from evil. Now we call upon our own man-made institutions for such deliverance. That is sometimes to ask for miracles."

Evil is a problem that will not go away. For some it is an inescapable fact of the human condition. For others "evil" is a term that should only be used to name the most horrible of crimes. Still others think that the worst problem lies with the abuse of the term: using it to vilify a misunderstood enemy. No matter how we approach it, "evil" is a concept that continues to call out for critical reflection. This volume collects the results of a two-year deliberation within the Boston University Institute for Philosophy of Religion lecture series, bringing together scholars of religion, literature, and philosophy. Its essays provide a thoughtful, sensitive, and wide-ranging consideration of this challenging problem-and of ways that we might be delivered from it.

Search-and-rescue helicopter pilot Brannon Callahan races against time to rescue U.S. Marshall Roark Holland, and the donor heart he is carrying, after his small helicopter crashes during a blizzard in the Great Smoky Mountains National Park.

After more than two decades of unprecedented political, social, and religious upheaval, revolutionary thought and activity in Britain continued to thrive even after the restoration of the monarchy in 1660. This highly original study, which draws on the reports of both police and informers, follows the "radical underground" in England from the eve of the Restoration to the collapse of the northern rebellion in 1663. In a tale that winds its way across England and into Scotland, Ireland, the Netherlands, and Switzerland, Greaves examines how radicals remained united in their common animosity to monarchy, prelacy, taxes, and popery. Although ultimately unsuccessful, their conspiracies and rebellions nonetheless fueled the drive for the repression of Nonconformists, prompted the state to cultivate an elaborate network of informers, and heightened the concern for domestic security.

The conservative commentator offers reflections on the evils of modern life, from the moral degradation of American society and the dangers of liberalism to the growing threat of terrorism throughout the world.

Welcome to Me-Ville, where you're surrounded by a culture that celebrates and elevates the individual. The You Utopia where your home, place of work, and even your place of worshp, is customized to your discerning tastes. A super-exclusive club where Self and Pride party, and Sacrifice and Humility can't get past the velvet ropes. A place where it's all about you. But is life supposed to be this way? Author Daivd Zimmerman takes us on a hilarious and honest trip through Me-Ville, while sharing the escape routes that lead out. David traces our self-loving lineage and examines prideful people in Scripture who were changed through God's power. Throughout, you'll encounter the powerful, progressive redemption from self that only Christ can offer.

Informed by recent news headlines about the U.S. Postal Services ongoing economic crisis, this story details the work-a-day activities in a postal facility, as its workers struggle to provide reliable customer and delivery services in competition with the rise of the Internet. The focus is on one well-meaning postal worker combating a malicious manager's antagonisms, while battling his own inner demon. Hector Soto, a U.S. postal worker with a fifteen-year career as a mail carrier, abruptly fi nds himself dismissed from duties by a manipulative manager rumored to be having an affair with his wife, Myra. When he confronts Myra, a violent exchange ensues and she bans him from their home by court order. Now brooding in his rental apartment, he reminisces through his collection of diaries he began as a boy abused by his domineering father, when his only friend and confi dant had been a G.I. Joe action fi gure. At first, his G.I. Joe (his alter ego) had spoken to him in his thoughts, until, one day, shockingly it materialized to advise him face to face. Joe faded from Hector's life when he became a teen, but has returned, inducing hallucinations and urges of murderous wrath. Soon Joe materializes as a ghostly phantom warrior, taunting Hector with Myra's infidelity and her conspiracy to take his beloved daughter from him. Despite Hector's efforts to resist, he finds himself succumbing to Joe's dark counsel.

When Nick hears about the dead man found in the desert, he doesn't give it much thought. Only thirty minutes from the Mexican border, corpses have a funny way of turning up in the strangest places. But this is no ordinary corpse. The dead man's driver's license says he is 44 years old, but the medical examiner claims the body is that of a man named Alex Dodson in his 90's. Why the age discrepancy? Dodson's research was intended to study the effects of the progeria disease, in hopes of finding a way to arrest the process. But Dodson inadvertently creates a terrifying new biological weapon, which certain parties will do anything to get their hands on. Before Nick realizes it, he's hot on the trail of a vicious killer, is sidetracked by a beautiful female homicide detective, and is almost killed by a KGB agent who never heard of glasnost. In order to recover the lethal bio-weapon and save the city from a disease deadlier than AIDS, Nick must

stay alive long enough to find out who really killed Alex Dodson and solve the medical mystery of the century.
