Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.

Introduced in 1960, Chevrolet's "Beetle Fighter" looked like a sure winner. However, in 1965 the Corvair became mired in controversy, due to questions regarding its high speed handling and stability. In spite of this the Corvair has become a highly desired collectible amongst many car enthusiasts. This book covers all of the cars produced, as well as the rise and fall of the Corvair. Included are production figures for each model for all years the Corvair was produced in America and Canada. Also features: year by year spotter's guide, comfort and convenience options and prices when first available, installation rates, power train specifications and contact information for parts vendors, clubs and other resources.

This book examines the history of southern Africa, including an overview of each of the countries that comprise that area of the continent.
