A book by self-styled Christian writer Des Griffin about the so-called New World Order. The Anti-Defamation League (ADL) has called Griffin an "anti-Semitic conspiracy theorist." The book claims that "International Jews"/ Illuminati are today's "modern day Nazis ". It argues that the Holocaust changed the "Jewish psyche" and created a reactionary response becoming worse than Nazi Germany in an international/New World Order conspiracy.

A story of the power-crazed Internationalists and the methods they employ in steering various nations towards total social and financial ruin in preparation for their ultimate absorption into the planned world-wide dictatorship. It covers globalisation and the New World Order.

Throw out everything you think you know about history. Close the approved textbooks, turn off the corporate mass media, and whatever you do, don't believe anything you hear from the government—The Rise of the Fourth Reich reveals the truth about American power. In this explosive new book, the legendary Jim Marrs, author of the underground bestseller Rule by Secrecy, reveals the frighteningly real possibility that today the United States is becoming the Fourth Reich, the continuation of an ideology thought to have been vanquished more than a half century ago. This concept may seem absurd to those who cannot see past the rose-colored spin, hype, and disinformation poured out daily by the media conglomerates—most of which are owned by the very same families and corporations who supported the Nazis before World War II. But as Marrs precisely explains, National Socialism never died, but rather its hideous philosophy is alive and active in modern America. Unfortunately, most people cannot understand the shadowy links between fascism and corporate power, the military, and our elected leaders. While the United States helped defeat the Germans in World War II, we failed to defeat the Nazis. At the end of the war, ranking Nazis, along with their young and fanatical protégés, used the loot of Europe to create corporate front companies in many countries, including the United States of America. Utilizing their stolen wealth, men with Nazi backgrounds and mentalities wormed their way into corporate America, slowly buying up and consolidating companies into giant multinational conglomerates. Many thousands of other Nazis came to the United States under classified programs such as Project Paperclip. They brought with them miraculous weapon technology that helped win the space race but they also brought their insidious Nazi philosophy within our borders. This ideology based on the authoritarian premise that the end justifies the means—including unprovoked wars of aggression and curtailment of individual liberties—has gained an iron hold in the "land of the free and the home of the brave." For the first time Jim Marrs has gathered compelling evidence that an effort has been underway for the past sixty years to bring a form of National Socialism to modern America, creating in essence a modern empire—or "Fourth Reich"!

"Riveting...An elegantly composed study, important and even timely" (Kirkus Reviews, starred review) history of the Third Reich—how Adolf Hitler and a core group of Nazis rose from obscurity to power and plunged the world into World War II. In "the new definitive volume on the subject" (Houston Press), Thomas Childers shows how the young Hitler became passionately political and anti-Semitic as he lived on the margins of society. Fueled by outrage at the punitive terms imposed on Germany by the Versailles Treaty, he found his voice and drew a loyal following. As his views developed, Hitler attracted like-minded colleagues who formed the nucleus of the nascent Nazi party. Between 1924 and 1929, Hitler and his party languished in obscurity on the radical fringes of German politics, but the onset of the Great Depression gave them the opportunity to move into the mainstream. Hitler blamed Germany's misery on the victorious allies, the Marxists, the Jews, and big business—and the political parties that represented them. By 1932 the Nazis had become the largest political party in Germany, and within six months they transformed a dysfunctional democracy into a totalitarian state and began the inexorable march to World War II and the Holocaust. It is these fraught times that Childers brings to life: the Nazis' unlikely rise and how they consolidated their power once they achieved it. Based in part on German documents seldom used by previous historians, The Third Reich is a "powerful...reminder of what happens when power goes unchecked" (San Francisco Book Review). This is the most comprehensive and readable one-volume history of Nazi Germany since the classic The Rise and Fall of the Third Reich.

From the #1 New York Times– and Wall Street Journal–bestselling author comes the dramatic second adventure in the brand-new Clandestine Operations series about the Cold War, the fledgling Central Intelligence Agency—and a new breed of warrior. In Top Secret, W.E.B. Griffin introduced a remarkable new cast of heroes as they found themselves on the front lines of an entirely different kind of war. Now, these men and women are going to find out what they've really gotten themselves into. James Cronley thought he had done well—he didn't know he'd done this well. His first successful mission for the about-to-be-official new Central Intelligence Directorate has drawn all kinds of attention, some welcome, some not. On the plus side, he's now a captain; promoted to Chief, DCI, Europe; and in charge of a top secret spy operation. On the minus side, a lot of people would like to know about that operation, including not only the Soviets, but his own Pentagon, as well as a seething J. Edgar Hoover. Cronley knows that if just one thing goes wrong, he's likely to get thrown to the wolves. As if that weren't enough pressure, complications are springing up on all sides. He's discovered a surprising alliance between the former German intelligence chief and, of all things, the Mossad. A German family that Cronley never knew he had has suddenly, and suspiciously, emerged. And he's due for a rendezvous with an undercover agent against the Soviets known only as Seven K. It's when he meets Seven K that he gets the real surprise.

The first history of postwar fears of a Nazi return to power in Western political, intellectual, and cultural life.

We witness step by step decay of civilization across the world, particularly in South Africa. As many others, I also want to arrest the decline. I thought I could reach the broad public by writing but after various persons had read the draft, I realized only independent thinkers could benefit from it, whilst it needlessly confuse those who are dependent on society for values. Those, who are content with society and their prospects, probably would not find use in this writing. Maintenance of civilization is of the very greatest concern to man and even to plant and animal, particularly threatened species. I cannot imagine anyone, who can read, would object to this axiom. But few know, that which we call civilization, was created by the Aryans and only this race and those who inherited sufficient of its characteristics, maintain civilization. On each of the legion subjects relating to civilization scholars already published documents but I have yet to find one revealing adequate role players to elucidate a total image covering both nature and history, to enable us to find solutions for the preservation of Civilization.

Tells the story of the financial calculation, exploitation, and greed at the core of the Third Reich, and includes revelations about those who provided Hitler with money
