CRAFTSMANSHIP IN THE NEW INDUSTRIAL REVOLUTION. The first global survey of the designers and makers reinventing artisanship in the digital era - introducing the evolving 'digital artisan' movement. While the industrial revolution of the nineteenth century diminished the role of the craftsman in the manufacturing process, the digital revolution has given rise to entirely new working methods and hybrid skill-sets, and has reinvented the way we approach and appreciate the output of the craftsman.

Digital Handmade. While the industrial revolution of the nineteenth century diminished the role of the craftsperson in the manufacturing process, the digital revolution has had a less devastating effect. Today's digital technologies have given rise to entirely new working methods, skill sets, and consumer products that don't eliminate, but enrich traditional hand techniques.
