Din 17100 St37-2 is the most common steel grade in common carbon structural steel. Xsteel export about 50 thousands tons St37-2 each month to middle east for making oil tanks there. When delivery these steel plate St37-2, our mill would issued original mill test certificates for each plate which including the heat number, batch number, dimension, quantity, chemical composition, mechanical property and heat treatment if required when ordered and other technical.
