There were, however, many other important figures involved in early X-ray use in NYC, including Nikola Tesla, Michael Pupin, and Morton. Morton, the son of William T.G. Morton of anesthesia fame, was a prominent physician, a fellow of the New York Academy of Medicine, and a respected neurologist and electro-therapeutic ...

The Early Days of the X-Ray | Books, Health and History 2012 marked the centenary of one of the most significant discoveries of the early twentieth century, the discovery of X-ray diffraction (March 1912, by Laue, Friedrich, and Knipping) and of Bragg's law (November 1912). The discovery of X-ray diffraction confirmed the wave nature of X-rays and the space-lattice hypothesis.
