Proteinases and their Inhibitors: Structure, Function, and Applied Aspects documents the proceedings of an international symposium organized by the Department of Biochemistry, Jozef Stefan Institute, E. Kardelj University, Ljubljana, and the Department of Organic Chemistry and Biochemistry, Rudjer Boskovic Institute, Zagreb, held in Portoroz, Yugoslavia, September 29-October 3, 1980. The volume contains 34 papers that are organized into four parts. Part I on biological functions includes studies such as muscle protein breakdown in human catabolic state and age-dependent changes in intracellular protein turnover. The papers in Part II, which deals with properties and structure of enzymes, cover topics such as structures and biological functions of cathepsin B and L; and human erythrocytes peptidases. Part III is devoted to industrial applications, such as exogenous proteinases in dairy technology and the application of immobilized proteinases. Part IV on proteinase inhibitors includes papers on thiol inhibitors of proteases and intracellular neutral proteinases and inhibitors. The papers in this volume provide new data, concepts, and visions which will not only prove useful, but will also stimulate further investigations of proteinases and their inhibitors.

In this timely volume, James E. Katz, a leading authority on social consequences of communication technology, analyzes the way new mobile telecommunications affect daily life both in the United States and around the world. *Magic in the Air* is the most wide-ranging analysis of mobile communication to date. Katz investigates the spectrum of social aspects of the cell phone's impact on society and the way social forces affect the use, display, and re-configuration of the cell phone. Surveying the mobile phone's current and emerging role in daily life, Katz finds that it provides many benefits for the user, and that some of these benefits are subtle and even counter-intuitive. He also identifies ways the mobile phone has not been entirely positive. After reviewing these he outlines some steps to ameliorate the mobile phone's negative effects. Katz also discusses use and abuse of mobile phones in educational settings, where he finds that their use is eroding students' participation in class even as it is helping them to cheat on exams and cut class. Parents no longer object to their children having mobile phones in class in a post-Columbine and 9/11 era; instead they are pressing schools to change their rules to allow students to have their phones available during class. And mobile phone misbehavior is by no means limited to students: Katz finds that teachers are increasingly taking calls in the middle of class, even interrupting their own lectures to answer what they claim are important calls. In keeping with the book's title, Katz explores the often overlooked psychic and religious uses of the mobile phone, an area that has only recently begun to command scholarly interest. *Magic in the Air* will be essential reading for communications specialists, sociologists, and social psychologists.

The Blackaby Study Bible gives you the results of the Blackaby family's approach to Bible study and encourages you to be available for an encounter with God in His Word. Unique notes and articles throughout the Bible give you guidance for experiencing dramatic, life-changing "God encounters" on a daily basis. This is the crowning work of Dr. Henry Blackaby, co-author of the bestseller *Experiencing God*, and his four sons, Drs. Richard, Thomas, Melvin, and Norman Blackaby. Now you can learn how to develop a regular habit of Bible reading and study, expecting great things to happen as God engages you

in His Word. See how God has encountered people in many times and places, using ordinary men and women in extraordinary ways to do His will.

Olivia Grace has secrets that could destroy her. One of the greatest of these is the Earl of Gracechurch, who married and divorced her five years earlier. Abandoned and disgraced, Grace has survived those years at the edge of respectability. Then she stumbles over Jack on the battlefield of Waterloo, and he becomes an even more dangerous secret. For not only is he unconscious, he is clad in an enemy uniform. But worse, when Jack finally wakes in Olivia's care, he can't remember how he came to be on a battlefield in Belgium. In fact, he can remember nothing of the last five years. He thinks he and Olivia are still blissfully together. To keep him from being hanged for a traitor, Olivia must pretend she and Jack are still married. To unearth the real traitors, Olivia and Jack must unravel the truth hidden within his faulty memory. To save themselves and the friends who have given them sanctuary, they must stand against their enemies, even as they both keep their secrets. In the end, can they risk everything to help Jack recover his lost memories, even though the truth may destroy them both?
