A Hoosier to die for? When vintage cookware and cookbook collector Jaymie Leighton spies an original 1920s Hoosier brand kitchen cabinet at an estate auction, it's love at first sight. Despite the protests of her sister that the 19th-century yellow-brick house they share in Michigan is already too cluttered with Jaymie's "junk," she successfully outbids the other buyers and triumphantly takes home her Hoosier. But that night on the summer porch where they've left the Hoosier to be cleaned up, a man is murdered, struck on the head with the steel meat grinder that is part of the cabinet. Who is this stranger—and what was he doing on their porch? Does his death have anything to do with the Hoosier? As the police struggle to determine the man's identity, Jaymie can't help doing a little digging on her own, accompanied by her three-legged Yorkie Poo, Hopalong. But in her bid to uncover the truth about the hidden secrets of the Hoosier, Jaymie may be the one who ends up going, going—gone.

Consciousness is perhaps one of the greatest mysteries in the universe. This ambitious book begins with a philosophical approach to consciousness, examining some key questions such as what is meant by the term "conscious," and how this applies to vision. The book then explores major visual phenomena related to attention and conscious experience—including filling-in processes, aftereffects, multi-stability, forms of divided attention, models of visual attention, priming effects, types of attentional blindness and various visual disorders. For each phenomenon, the biological and cognitive level research is reviewed. Themes touched upon throughout are the relation between consciousness and attention, automatic vs. willful processes, singularity vs. multiplicity, and looking without seeing. The book concludes with an evolutionary approach, describing possible functions that visual consciousness may serve and how those may affect the way we see. The systematic review of key topics and the multitude of perspectives make this book an ideal primary or ancillary text for graduate courses in perception, vision, consciousness, or philosophy of mind.

roustabout Errol Stone is enlisted by a church messenger arriving with urgent missives for the hermit priest in the hills. Eager for coin, Errol agrees to what he thinks will be an easy task, but soon finds himself hunted by deadly assassins. Forced to flee with the priest and a small band of travelers, Errol soon learns he's joined a quest that could change the fate of his kingdom. Protected for millennia by the heirs of the first king, the kingdom's dynasty nears its end and the selection of the new king begins--but in secret and shadow. As danger mounts, Errol must leave behind the stains and griefs of the past, learn to fight, and discover who is hunting him and his companions and how far they will go to stop the reading of the stones. "With an engaging, imaginative world that bristles with danger, characters that keep you guessing, and a story that sticks with you, *A Cast of Stones* will keep you devouring pages until the very end. I highly recommend it!" --John W. Otte, author of *Failstate* "Carr's debut, the first in a series, is assured and up-tempo, with much to enjoy in characterization and description--not least the homely, life-as-lived details." -Publishers Weekly This fast-paced fantasy debut set in a medieval world is a winner. Both main and secondary characters are fully drawn and endearing, and Errol's transformation from drunkard to hero is well plotted. Carr is a promising CF author to watch. Fans of epic Christian fantasies will enjoy discovering a new voice. "Like the preceding series title, *Inescapable*, this tale of suspense offers a colorful cast of characters, small-town drama, and a hint of romance. A sure bet for fans of Hannah Alexander." --Library Journal "[Good fantasy books] have to be excellent. Good storytelling and exceptional characters with circumstances that are easy enough to follow and wrap your brain around but keep you entertained and guessing... *Cast of Stones* has found itself firmly in that list of books. I absolutely, one hundred percent loved this book." --Radiant Lit

When the enemy threatens to take away all that she holds dear, Taylor is faced with a decision: submit to God's will and let Him fight her battles, or turn away from the Word.
