A charmingly dated look at frauds, hoaxsters and other chicanery, Charles Mackay's classic *Extraordinary Popular Delusions & the Madness of Crowds*, is an interesting, facinating read. Originally written in the mid-19th century, Mackay was a Scottish writer who dabbled in poetry, journalism and even songs, but is primarily remembered these days for this massive look at the ways people get sucked into scams and hoaxes.

Popular delusions affect many investors - just ask Madoff, and other swindlers. The urge to "get rich quick" is mostly delussional. Once in ten thousand investments does one "hit the jackpot". The "Hula-hoop" back in the 50's is a classical example of hitting it big.

Charles MacKay's groundbreaking examination of a staggering variety of
popular delusions, crazes and mass follies is presented here in full
with no abridgements. The text concentrates on a wide variety of
phenomena which had occurred over the centuries prior to this book's
publication in 1841. Mackay begins by examining economic bubbles, such
as the infamous Tulipomania, wherein Dutch tulips rocketed in value
amid claims they could be substituted for actual currency. As we
progress further, the scope of the book broadens into several more
exotic fields of mass self-deception. Mackay turns his attention to

the witch hunts of the 17th and 18th centuries, the practice of alchemy, the phenomena of haunted houses, the vast and varied practices of fortune telling and the search for the philosopher's stone, to name but a handful of subjects. Today, Extraordinary Popular Delusions and The Madness of Crowds is distinguished as an expansive, well-researched and somewhat eccentric work of social history.

Extraordinary Popular Delusions and the Madness of Crowds is a landmark study of crowd psychology and mass mania and a singular casebook of human folly throughout the ages. Chronicled here are accounts of swindles, schemes, and scams on a grand scale. Other chapters deal with fads and delusions that have sprung from ideas, beliefs, and causes that still have champions today: the prophecies of Nostradamus, the coming of comets and Judgment Day, the Rosicrucians, and astrology. The book also surveys controversial people and movements of the past: necromancy, Father Hell and Magnetism, Anthony Mesmer and Mesmerism, the Crusades, sorcery and the burning of witches, not to mention the popularity of murder by slow poisoning.

A complete repackaging of the classic work about grand-scale madness,

major schemes, and bamboozlement--and the universal human susceptibility to all three. This informative, funny collection encompasses a broad range of manias and deceptions, from witch burnings to the Great Crusades to the prophecies of Nostradamus.

2017 Reprint of 1852 Edition. Being selections from Memoirs of Extraordinary Popular Delusions and the Madness of Crowds. Mackay's work, first published in 1841, chronicles the various fallacies and delusions that have afflicted human thinking during the modern period. Though the scope of the first edition was wide ranging--including alchemy, fortune-telling, haunted houses and other forms of philosophical delusion--the present editions reprints only those portions of the original work that pertain to economic bubbles. Present-day writers on economics, such as Michael Lewis and Andrew Tobias, laud Mackay's three chapters on the Tulipomania, the South Sea Bubble, and on the Mississippi Scheme.
