Co-op and Condo Financing A Market Overview. Co-op and Condo Financing. Today, some eight years after the economic devastation of the Great Recession first began to gather steam, financing for co-op and condominium buildings and individual unit purchases is again widely available. The market is overall quite healthy, and though there have been some systemic changes to this part of the financing world as a result of that financial meltdown, today's co-op and condo financing instruments are ...

### A Market Overview - Co-op and Condo Financing - New ...

Subordinate financing means there is another loan on the property (or will be) when you close on the purchase of your condo. Some buyers put only 5 percent down — and they get a higher rate than those who put 20 percent down. What's more, loans with less than 20 percent down require a mortgage insurance policy, which adds to the monthly payment. We'll look at mortgage insurance in detail in chapter 4.

Many co-op and co-ownership buildings were originally financed with blanket mortgages, and if your building has an existing blanket mortgage in place, your lender will have to agree to have their mortgage in second position. This means that in the unlikely event of total default, the blanket mortgage would be paid off first.

### **Mortgages for Co-op and Co-ownership Properties | Dave The ...**

Unlike a condo, you don't pay a mortgage with a co-op. You buy your shares, which you need to secure financing to purchase, in most cases. On a monthly basis, you then pay what they call maintenance fees. You pay these on a monthly basis, much as you would a mortgage, but the fees go to the corporation who owns the project.
