"Forgotten Ally is a breathtaking chronicle of China's war with Japan from 1937 to 1945, a major theater of World War II whose story most Western readers have never heard in full -- certainly not as Mitter interprets it here. Authoritative and epic, pulsing with life, this is a grand vision of China's transformation through the cataclysm of war in the twentieth century."

Forgotten Ally recounts the history of China's role in World War II from both an external power perspective and the internal struggle between the nationalists and the communists. Covering the year of 1937-1945 (invasion of Manchuria until the peace treaty) the book looks at how China was the sole defender against Axis aggression before the war began.

May 8 will mark the seventy-fifth anniversary of the end of World War Two in Europe. While the stories of D-Day and Dunkirk are well versed, China's resistance against Japan is one of the great untold stories of the Second World War and one that contributed heavily to the Allies victory.

On that basis alone, Oxford University historian Rana Mitter is justified in titling his revisionist history of China in World War II *Forgotten Ally*.
