Fox Float R Manual

Your FLOAT R is delivered to your bike manufacturer in one of three settings: FIRM, MEDIUM, and LIGHT. The setting of your FLOAT R is listed on the band at the bottom of the air sleeve and is denoted by an icon, as shown on the left. LIGHT is represented by the smallest bar. MEDIUM is represented by the middle bar.

UNDERSTANDING THE FLOAT 3 EVOL R FOX FLOAT
(FOX Load Optimizing Air Technology) 3 EVOL R
air shocks are high- performance shock
absorbers that use air as springs, instead of
heavy steel coil springs or expensive
titanium coil springs. Underneath that air
sleeve is a high- performance, velocity-
sensitive, shimmed damping system.

FLOAT 3 EVOL R FACTORY SERIES OWNERS MANUAL
Rebound damping is adjusted by the red
clicker knob on your FOX Air Vanilla FLOAT-R.
The red rebound clicker controls the speed at
which the shock returns after the shock is
compressed through the stroke. Turning the
rebound clicker clockwise will cause the
rebound to be slower, counterclockwise will
cause the rebound to be faster.
