A mission gone wrong. Innocent lives have been lost. Escaping wrongful imprisonment wasn't something Connor had in mind, but being put into stasis aboard Earth's first interstellar colony ship was something he couldn't have prepared for. For three hundred thousand colonists, the new colony brings the promise of a fresh start...a second chance. Connor might be the wrong man for the colony, but he's the right man to see that it survives what's coming. A new world with new challenges, but the mission has changed. If you loved Old Man's War and Ender's Game, you'll love First Colony - Genesis, a new military science fiction series.

For years, Connor and others in the colony have unraveled the mysteries of New Earth and the global catastrophes that nearly destroyed its previous inhabitants. Their work led to the discovery of other worlds beyond the known universe. It became clear that many of those worlds had been attacked by an interdimensional invader that left untold amounts of manipulation, hardship, and annihilation in its wake. It's only a matter of time before the colony becomes the next target. When a trusted ally requests Connor's help to investigate claims of new widespread invasions, he has no choice but to help. Connor believes that the only way to stop the invaders is to find their homeworld, but its location is a closely guarded secret. Many civilizations sought to discover the invader's homeworld and none have succeeded. Time is running out for the colony, and Connor and a team of CDF soldiers may be the only thing that stands in the way of annihilation. Invasion is the eleventh book in the bestselling military science fiction series, First Colony. Read the eleventh book of this epic today!

Hold the line. After narrowly defeating the invading enemy fleet, there is evidence that the attack isn't over. ingenuity to stop the invaders. But will he succeed when he finds himself pitted against mankind's ultimate enemy? This could be mankind's final hour . . . or its greatest victory.

A mission gone wrong. Innocent lives have been lost. Escaping wrongful imprisonment wasn't something Connor had in mind, but being put into stasis aboard Earth's first interstellar colony ship was something he couldn't have prepared for. For three hundred thousand colonists, the new colony brings the promise of a fresh start ... a second chance.

Far from Earth, on a ship carrying the 13th and 14th generations of descendants from the original crew, life is short. You are born, learn the tasks needed to keep the ship running, help breed and train the next crew - and your death is ordered by the computer in charge. Gregson, chief of the psych-police, makes sure the computer's death-sentences are carried out quickly and painlessly. His duty is a sacred trust. He knows the intricacies of the system, how it works . . . and how it can be subverted. He is growing old. Rebellious. He also knows his name will soon come up in the computer for elimination. And he has no intention of carrying out his own death-sentence!

"Earth is no longer the center of the universe. After the invention of the faster-than-light jump drive, humanity is rapidly establishing new colonies. But the vast distances of space mean that the old order of protection and interstellar law offered by Earth has ceased to exist. When a nearby world attacks, the new colony of Glenlyon turns to Robert Geary, a young former junior fleet officer, and Mele Darcy, a onetime enlisted Marine. With nothing but improvised weapons and a few volunteers, Geary and Darcy must face down warships and armored soldiers--or die trying"--

A colony divided. The Krake, a mysterious enemy who has brought about the collapse of entire civilizations, is hunting for New Earth. Connor Gates, former elite soldier and now general of the colonial military, must find a way to protect the colony, which seems all but impossible when both humans and aliens alike are ignoring the very threat that should be uniting them all. To forge a future for the colony, Connor must risk everything. Battle weary but vigilant, Colonel Sean Quinn must rebuild the morale of Trident Battle Group while fulfilling his mission, but when he receives an invitation to meet a Krake rebel faction, he must act. Sean seizes a rare opportunity to gather crucial intel about the enemy and possibly gain an ally, but can he trust them or will their betrayal doom them all. Harbinger is the ninth book in the bestselling military science fiction series, First Colony. Read the ninth book of this epic today!

When young lovers Amy and Elder and the other passengers of the spaceship Godspeed finally land on Centauri-Earth and start to colonize the new world, they encounter pterodactyl-like monsters and the threat of unseen aliens.
