A "Magic Day" is happening soon (2016/2017 or soon thereafter), and you need to be prepared. Many won't make it. This New Beginning is unlike any our world, much less our universe, has ever seen. We explain why, and its roots go way back in time - - well before Jesus. Jesus is a big piece, but nonetheless a piece, of a much bigger plan involving millions of players and their successful effort to repair the Great Fall (completed 2008) - - so that we CAN get through this transition. Mission accomplished. - - - - - This non-religious book reveals that plan, our grossly misunderstood history, who Jesus really is, and the Sacred Geometry which rules everything. By doing so it helps everyone, from all walks of life, "Get Aligned" so that we, as a species and individually, are vibrationally-unified and thus more so successful in this transition. - - - - - In other words, this is your Guide Book to the "2012 Transition" that's finally happening now (the delay is explained). It includes many references to further educate and assist you, so that you are comfortable and aligned with this transition. - - - - - There is no Cinderella complex about this transition: it's all about the free-will choice that you make on that Magic Day. This book is your ticket to understanding all of this, and getting you and your family on board. Time is of the essence. This transition could happen at any moment. It's now 2016. - - - - - [TABLE OF CONTENTS: to see this, please click on the Kindle Version of this same book, and then "Look Inside"]

Advance praise for Philip Plait's Bad Astronomy "Bad Astronomy is just plain good! Philip Plait clears up every misconception on astronomy and space you never knew you suffered from." --Stephen Maran, Author of Astronomy for Dummies and editor of The Astronomy and Astrophysics Encyclopedia "Thank the cosmos for the bundle of star stuff named Philip Plait, who is the world's leading consumer advocate for quality science in space and on Earth. This important contribution to science will rest firmly on my reference library shelf, ready for easy access the next

time an astrologer calls." --Dr. Michael Shermer, Publisher of Skeptic magazine, monthly columnist for Scientific American, and author of The Borderlands of Science "Philip Plait has given us a readable, erudite, informative, useful, and entertaining book. Bad Astronomy is Good Science. Very good science..." --James "The Amazing" Randi, President, James Randi Educational Foundation, and author of An Encyclopedia of Claims, Frauds, and Hoaxes of the Occult and Supernatural "Bad Astronomy is a fun read. Plait is wonderfully witty and educational as he debunks the myths, legends, and 'conspiracies' that abound in our society. 'The Truth Is Out There' and it's in this book. I loved it!" --Mike Mullane, Space Shuttle astronaut and author of Do Your Ears Pop in Space?

An extension of every Witch's spirituality, spellcraft is a vital tool for sparking significant life change. And when you attune your magick to planetary energies, it becomes infinitely more powerful. Organized by the Sun, Moon, and planets, each of the 55 spells and rituals in this book are aligned according to astrological energies and designed to be easily customized for your specific intention and unique spiritual path. From personal growth to practical concerns, you'll find a rich variety of dark and light magickal workings for every purpose: Glamoury Healing childhood wounds Revealing truth Halting gossip Attracting love Mending quarrels Banishing heartache Ending addictions Cursing a violator Breaking a curse Cord-cutting Summoning ancestors Guiding the dead and dying Weather magick Prophetic dreaming Scrying Spiritual rebirth Past-life regression Included is a list of zodiacal and astrological correspondences—Sun sign, Moon sign, day of the week, mythical archetypes, themes, and more—to help you determine the best times to work magick. Praise: "Masterful and compassionate... Planetary Spells & Rituals provides food for thought, spells and rituals for use, and is a welcome, much-needed addition to any spellcaster's bookshelf."—Judika Illes, author of The Encyclopedia of 5,000 Spells "Planetary Spells & Rituals is an urban, modern, and cutting-edge manual for those willing to explore the layers of magickal possibility within. Raven expresses the essence of the Craft in a clear way, and balance is a great theme of this book. The framework of Planetary Spells is quite informative for those seeking some strong workings to bring forth realistic results."—Michael W. Ford, Author of Luciferian Witchcraft and The Bible of the Adversary "Unlike most spellbooks, which focus on the moon, Planetary Spells & Rituals places major importance on zodiacal and planetary influences, with the power of the sun playing a pivotal role. Eclectic and unusual spells are accompanied by sensible explanations of how spells work and how to cast them well. As always, Raven takes an old standard and makes it new and fresh, with a magickal approach all his own."—Deborah Blake, author of The Everyday Witch A to Z Spellbook and The Goddess is in the Details "With his usual depth, clarity, and highly readable style, Raven Digitalis reveals yet another layer we can add to our magic's efficacy and power—perfect timing! This, in addition to many creative and practical ideas for spellwork, renders Planetary Spells & Rituals a must-have for any Witchy library."—Thuri Calafia, author of Dedicant: A Witch's Circle of Fire "With great understanding Raven takes his readers into previously uncharted territory as Planetary Spells dives deep into the nuances of astrology, dark and light magick, and weaves together a unique and much-needed volume explaining the connections between them."—Corvis Nocturnum, author of Embracing the Darkness, Understanding Dark Subcultures, and Allure of the Vampire; Our Sexual Attraction to the Undead

Planetary magick lies at the root of all astrological, alchemical, and Qabalistic lore. Although the planetary powers of the cosmos are far beyond our intervention, their correspondences in the depths of the psyche are within our reach through certain special meditative and ritual methods.

Look to the stars for a whole new approach to market cycle forecasting A Trader's Guide to Financial Astrology is the definitive guide to trading market cycles based on astrological data. Written by a highly-respected technical analyst, this book makes the connection between the movements of planets and the volatility of the market. Readers can draw upon one hundred years of historical data as they learn how to spot correlations from the past, and refer to planetary and lunar data for the next five years as they shape their own strategy. The book covers the principles of astrological forecasting as applied to the financial markets, explaining what to watch for and how to interpret planetary and lunar activity, plus expert insight on everyday practical application. A study by the Federal Reserve Bank of Atlanta determined that the U.S. stock markets tend to be negatively affected by geomagnetic storms, and the Royal Bank of Scotland demonstrated that a trading system based on the phases of the moon would have outperformed the market. A Trader's Guide to Financial Astrology shows traders how to tap into the planetary forces that influence market activity. Readers will: Learn how planetary and lunar movements relate to the financial markets Draw upon 100 years of historic correlations and five years of forecast data Forecast long-term and short-term activity based on planetary relationships and lunar movement Enter the markets at key turning points, using price patterns and other tools When integrated with technical trading patterns, astrology can be an effective way of shifting perspective and approaching the market differently. For traders who have always wanted to know what to do when Mercury is in retrograde or the moon is new, A Trader's Guide to Financial Astrology provides information and insight from a leading market educator.

Summarising the striking advances of the last two decades, this reliable introduction to modern astronomical polarimetry provides a comprehensive review of state-of-the-art techniques, models and research methods. Focusing on optical and near-infrared wavelengths, each detailed, up-to-date chapter addresses a different facet of recent innovations, including new instrumentation, techniques and theories; new methods based on laboratory studies, enabling the modelling of polarimetric characteristics for a wide variety of astronomical objects; emerging fields of polarimetric exploration, including proto-planetary and debris discs, icy satellites, transneptunian objects, exoplanets, and the search for extraterrestrial life; and unique results produced by space telescopes, and polarimeters aboard exploratory spacecraft. With contributions from an international team of accomplished researchers, this is an ideal resource for astronomers and researchers working in astrophysics, earth sciences, and remote sensing keen to learn more about this valuable diagnostic tool. The book is dedicated to the memory of renowned polarimetrist Tom Gehrels.
