Eastern knew that removing those two guns allowed the plane to carry more ammunition to the fight. The Grumman Wildcat carried 1,440 rounds for six guns, while the Eastern FM series carried 1,720 rounds for its four guns, allowing more firing time and endurance.

Grumman FM-2 Wildcat - The American Heritage Museum

The FM-2 is a late World War II variant of the famous Grumman F4F Wildcat built by General Motors ' Eastern Aircraft Division. Changes to the aircraft included a larger engine and a taller vertical tail. General Motors began building Wildcats when Grumman ' s factories were dedicated to the production of F6F Hellcats. The Wildcat first flew in 1937 and entered Navy service with VF-41 in 1940 ...
