A European trading concern hires Marlow to pilot a boat up the Congo River in search of Kurtz—a first-class ivory agent and the manager of the company’s highly profitable Inner Station—who is believed to be on his deathbed. With a handful of pilgrims as his passengers and a crew of cannibals, Marlow steams his way into the African interior. The terrifying discovery he makes at the end of his journey and the horrors he witnesses along the way have thrilled and disturbed readers for more than a century. A searing indictment of imperialism and a haunting exposé of mankind’s savage nature, Heart of Darkness is Joseph Conrad’s masterpiece. all devices. Heart of Darkness is a classic of world literature. The book tells a story about a voyage up the Congo River into the Congo Free State, in the heart of Africa. Marlow, the story's narrator, tells his story to friends aboard a boat anchored on the River Thames, London, England. This setting provides the frame for Marlow's story of his obsession with the ivory trader Kurtz, which enables Conrad to create a parallel between London and Africa as places of darkness. Central to Conrad's work is the idea that there is little difference between so-called civilized people and those described as savages; Heart of Darkness raises important questions about imperialism and racism. Joseph Conrad acknowledged that Heart of Darkness was in part based on his own experiences during his travels in Africa. In 1890, at the age of 32, he was appointed by a Belgian trading company to serve as the

captain of a steamer on the Congo River. Joseph Conrad (1857-1924), was a Polish author who wrote in English after settling in England. Conrad is regarded as one of the greatest novelists in English, though he did not speak the language fluently until he was in his twenties. He wrote stories and novels, often with a nautical setting, that depict trials of the human spirit in the midst of an indifferent universe. He was a master prose stylist who brought a distinctly non-English tragic sensibility into English literature. Tropes, Parables, Performatives collects J. Hillis Miller's essays on seven major twentieth-century authors: Lawrence, Kafka, Stevens, Williams, Woolf, Hardy, and Conrad. For all their evident differences, these essays from early to late explore a single intuition about literature, which may be framed by three words: "trope," "parable," and "performative." Throughout these essays Miller is fascinated with the tropological dimension of literary language, with the way figures of speech turn aside the telling of a story or the presentation of a literary theme. The exploration of this turning leads to the recognition that all works of literature are parabolic, "thrown beside" their real meaning. They tell one story but call forth

something else. Miller further agrees that all parables are fundamentally performative. They do not merely name something or give knowledge, but rather use words to make something happen, to get the reader from here to there. Each essay here attempts to formulate what, in a given case, the reader performatively enters by way of parabolic trope.

In this pair of literary voyages into the inner self, Joseph Conrad has written two of the most chilling, disturbing, and noteworthy pieces of fiction of the twentieth century. *Heart of Darkness* is a devastating commentary on the corruptibility of humanity. Based on Conrad's own 1890 trip up the Congo River, the story is told by Marlow, the novelist's alter ego. It is a journey into darkness and horror—both literally, as the narrator descends into a sinister jungle

landscape, and metaphorically, as he encounters the morally depraved Mr. Kurtz. The Secret Sharer is the tale of a young sea captain's first command as he sails into the Gulf of Siam—and into an encounter with his mysterious “double,” the shadow self of the unconscious mind. Joseph Conrad boldly experimented with the novella and novel forms, filled his writing with the exotic places he himself had traveled, and concerned himself with honor, guilt, moral alienation, and sin. Heart of Darkness and The Secret Sharer encapsulate his literary achievements—and his haunting portrayal of the dark side of man. claims that there is always something that slips through the epistemologist's grasp. A Touch of Doubt explores the significance of touch for the history of philosophical scepticism as well as for scepticism as an embodied form of subversive political, religious, and artistic practice. Drawing on the tradition of scepticism within nineteenth- and twentieth-century continental philosophy and psychoanalysis, this volume discusses how the sense of touch uncovers contradictions within our knowledge of ourselves and the world. It questions 1) what we can know through touch, 2) what we can know about touch itself, and 3) how our experience of touching the other and ourselves throws us into a state of doubt. This volume is intended for students and scholars who wish to reconsider the experience of touching in intersections of philosophy, religion, art, and social and political practice.
