This book presents essays exploring the ways in which popular culture reflects and engenders ongoing changes in Japan – Korea relations. Through a broad temporal coverage from the colonial period to the contemporary, the book ' s chapters analyse the often contradictory roles that popular culture has played in either promoting or impeding nationalisms, regional conflict and reconciliations between Japan and Korea. Its contributors link several key areas of interest in East Asian Studies, including conflicts over historical memories and cultural production, grassroots challenges to state ideology, and the consequences of digital technology in Japan and South Korea. Taking recent discourse on Japan and South Korea as popular cultural superpowers further, this book expands its focus from mainstream entertainment media to the lived experience of daily life, in which sentiments and perceptions of the "popular" are formed. It will be useful to students and scholars of Japanese and Korean studies, as well as film studies, media studies and cultural studies more widely.

"A marriage is always two intersecting stories." This realization comes perhaps too late to the husband of Etna Bliss-a man whose obsession with his young wife begins at the moment of their first meeting, as he helps Etna and her companions escape from a fire in a hotel restaurant, and culminates in a marriage doomed by secrets and betrayal. Written with the intelligence and grace that are the hallmarks of Anita Shreve's bestselling novels, this gripping tale of desire, jealousy, and loss is peopled by unforgettable characters as real as the emotions that bring them together.

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--
