"Hot Wheels, The Ultimate Redline Guide, Second Edition, takes an in-depth look at Redline Hot Wheels cars manufactured between 1968 and 1977. Everything you loved about the first edition is still here! Over 1,500 larger-than-life color photographs complement hundreds of listings, which include all color variations and current collector values. Besides Hot Wheels cars, collector buttons are listed and valued, as are track sets, play sets, sticker sheets and decals, parts, and related merchandise. This all-new second edition has been revised and expanded to include more variations and values for both loose and packaged vehicles. The new standard for Redline collectors also includes special sections on prototype vehicles, as well as vehicles inspired by 1970s cartoon series. Collector checklists are once again provided, in addition to user-friendly indexes. Multiple, full-color photos of each vehicle make it easy to identify cars. Cars are listed by value, from common to rare. The best guide for Redline Hot Wheels collectors just got better!

Volkswagen Beetles and their variants are some of the most iconic and easily recognizable cars on the road! The classic air-cooled Volkswagen Beetle, officially the Volkswagen Type 1, is regarded as one of the most important and well-engineered vehicles of the twentieth century. It was the most popular imported car in America in the 1960s, and before that it enjoyed a humble beginning as "the people's car" in its native Germany. The Complete Book of Classic Volkswagens encompasses the evolution of the popular Beetle as well as other variations of Volkswagen's air-cooled cars, vans, and trucks. Thoroughly illustrated, this is an invaluable reference to Volkswagen's collectible and iconic cars. The history of VW automobiles is just as colorful as the hues they were manufactured in, and this book illustrates the full story. German automakers originally sought to supply their countrymen with an automobile that was easy to mass produce. By 1938, they finalized the design for the VW "Bug"--the first rear-engined, rear-wheel-drive configured car. In its heyday, the little rounded Beetle was produced at a rate of more than one million per year. Today, with more than 23 million cars built, the Beetle holds the record as the most-produced passenger car of all time. But the Beetle is only one part of the air-cooled Volkswagen story. The rest--from Type 2 vans, pick-ups, and campers to the Type 113 "Super Beetle"--is included here. If you're the owner of a Volkswagen or if you just love their iconic look and you're interested in their evolution, this book deserves a place on your bookshelf.

Since being introduced in 1968, more than 5 billion Hot Wheels cars have been produced, making it the number-one toy in the world, with 10 cars sold every second. And it's not just for kids--the mini die-cast cars are also avidly sought by collectors worldwide. Today Hot Wheels continues to race into the future with live attractions, digital gaming, and even developing self-driving cars with AI software. Filled with energetic imagery, Hot Wheels at 50 vibrantly conveys the rich panoply of dynamic designs and thrilling experiences of this quintessential American toy.
